Date

15 Feb 2023

Attendees

- Brian McBride
- John Kunze
- Maria Gould
- Romuald Verrier
- Chloé Pochon
- aurélien conraux

Goals

- Monthly team check in.

Discussion items

Item	Who	Notes
Announcements	All	Code of conduct (see Community p.) : comments made on the draft version. Identifies an email-list to report a concern about the ark process. On the to-do-list : to set up a way to contact only one specific correspondant through a form.
Calls for papers, submission deadlines, upcoming meetings. Any news items we should blog about?		- Code4lib (Princeton, NJ) : Donny Winston and John Kunze will do a 3-hour pre-conference ARK training workshop, which could form the basis of a generic presentation for other events. "La contemporaine" (FR Library) has a broken ARKs problem after a technical update, which could form the basis of an educational feedback on the blog.
Update: working group home page and sidebar cleanup - compress sidebar list of 3 years of meetings. Done. - revisit objectives, deliverables – please review draft changes	John Kunze	- Updates made to the presentations of 2021-2022 meeting reports and Working Group charter. - Will aim to finalize this at next month's meeting.
Summary of the past month activities	All	Action: Brian: working on updating and consolidating curator documentation & creating github workflow for issue/project board integration
Update: Communication on certain NAAN assignment process	Brian McBride	
Update: In the coming weeks, if ARKA were to establish a Mastodon presence, is fosstodon.org a suitable server to start with? See email of Jan 18. - please comment by Jan 24 - Done: @arks_org@fosstodon.org is now a verified mastodon account	John Kunze	- Automated syndication is not needed between tweets & toots - Double posting allows to reach whichever audience at a small price. - Matching users between platforms might be difficult since aliases might differ. - Agreed to go ahead and replicate (to the extent possible) the twitter "following" lists on mastodon (eg, with debirdify). It's ok to begin posting both from twitter and mastodon.

Update: Action items from last time - John Kunze clarify and revise the checklist and policy docs to guide curators on use and encouragement of shoulders instead of NAANs; ask Romuald for feedback Please review Draft NAA(N) assignment policy	John Kunze	- To do : review of the updates (especially the name assigning autorithy paragraphs : NAA & partitioning of shared NAANs, concepts 99152 & agents 99166). A shoulder request has to be validated manually and not through the form. - Aim to finalize by next month's meeting.
Discussion/Task: Review the Google form to ensure same terminology is used on the form as the curator form, e.g. Organization base URL should be Organization Resolver URL		- Changes in the Google form would require changes in the processing script ==>N2T.
Discussion: Should we close the two issues that have not had any activity in 6+ months? Issue 16 & 24		- Decision : 6 month old unanswered requests for additional information may be closed.
Who is primary curator in the next few months? Need to update our home page. next month: **Aurélien & Chloé**		Feb 16 - Mar 15 Aurélien Chloé Mar 16 - Apr 19 Bertand Maria Apr 20 - May 17 Romuald Brian May 18 - Jun 21 Chloé Aurélien

Action items

- John Kunze (carry over) clarify and revise the checklist and policy docs to guide curators on use and encouragement of shoulders instead of NAANs; ask rv for feedback
- John Kunze compress sidebar 2020-2021 meetings
- John Kunze practice after the meeting by clearing up the issues that piled up in my curation month
- Brian McBride will take over today and will practice (pilot mode) communicating via github issues
- Brian McBride update and consolidate curator documentation for github workflow and issue/project board integration
