

Fedora 4 at UVA Library

Planning a better repository ecosystem with Fedora 4

We have stuff in Fedora 3...

Fedora
Commons™

University of Virginia Library

LIBRA Online Archive of University of Virginia Scholarship

Search for open access materials and more.

Please Note: UVA users may need to view items restricted to the University community.

Libra makes publications available to the world and provides safe and secure storage for the scholarly output of the UVA community. [Data Link](#)

Migrate, Delegate, Federate?

Migrate

Decommission existing Fedora 3 server after moving records to Fedora 4.

- Fedora 3 content managed by locally developed systems
- Content not currently managed

Delegate

Record within Fedora 4 for the non-fedora resources that links to the external system.

- Proprietary or externally hosted systems
- Systems with F4 migrations pending

Federate

Let resources masquerade as Fedora 4 managed content.

- Resources for which we routinely require filesystem access
- Resources ineligible for migration and for which delegation is technically challenging

Fedora 4

- normalized platform on which to build integrations
 - discovery
 - dissemination
 - preservation
 - audit
 - statistics
