

DuraCloud 20+ TB Subscription Pricing

Customize Your DuraCloud Package

DuraCloud pricing for 20+ TB passes on storage savings for larger accounts. It combines the cost of storage, processing, and support plus any add-ons. [Contact us](#) for a custom quote!

First, determine how many TB of storage you need and select your cloud storage provider:

Storage	Per TB
Amazon S3	\$325
Amazon S3 and Amazon Glacier	\$415
Chronopolis Network Dark Archive	\$275

The number of TB you select determines your processing fee; this fee covers ingest processing, bit integrity checking, content duplication, as well as an allowance for retrieval bandwidth.

Processing	Amazon S3	S3 + Glacier	Chronopolis Network Dark Archive
Per TB fee for 20-39 TB	\$325	\$325	\$163, plus one-time \$275 per TB ingest fee and \$275 per TB retrieval fee
Per TB fee for 40+ TB	\$265	\$265	\$133, plus one-time \$275 per TB ingest fee and \$275 per TB retrieval fee

All accounts start with the Base Support tier, which is support time starting after the initial account set-up and orientation. If you would like additional support hours, you can choose a support upgrade instead.

Support	
Base (10 hours) - required	\$1450

Administrative Features and/or an increased number of support hours are optional. Administrative Features allows for local administration of your account. Administrators can create and delete spaces, users, and groups and assign access to specific spaces to users or groups of users.

Add Ons	Amazon S3	S3 + Glacier	Chronopolis Dark Archive
Administrative Features	\$2985	\$2985	\$1493
Medium Support Upgrade (20 hours)	\$2500	\$2500	\$2500
Large Support Upgrade (30 hours)	\$3450	\$3450	\$3450
