DevMtg 2012-10-10
Developers Meeting on Weds, October 10, 2012

Agenda

Regular Items

- JIRA Reviews - starting with issue DS-1082
  - Search for all Unresolved Issues (since DS-1082)
- Forgoing JIRA review for now to spend time on 3.0 & Testathon. Specific JIRA tickets can be brought up as needed.

Discussion Topics

1. 3.0 Release Testathon
   a. Any last things to clean up or take care of?
   b. SourceForge - should we still put release downloads up on SourceForge
      i. Pros: Sourceforge provides nice download stats/charts. GitHub doesn't (the best GitHub can do is give you a grand total).
      ii. Cons: It's another place to post releases to.
   c. DS-1277: helix84 has suggested to have http://demo.dspace.org/ feedback form send to a different JIRA project. Thoughts? Alternatives?

2. Other topics?

Additional Ongoing Topics

1. How can we "catch up" with JIRA Backlog?
   • Do we need to "split up" the tickets & do quick reviews on our own? Or perhaps just split up tickets & do a very quick ranking & schedule ones with patches for 3.0?
   • Perhaps we schedule a "JIRA Backlog Bash" event (via IRC or similar) where we work together to decrease the backlog over a few days or a week (think of this like a "Test-a-thon" but instead we'd be working to just clear out the backlog as best we can).

2. Brainstorming Features/Changes for future. Can we work towards development teams around any of these projects?
   • Larger DSpace projects which seem to have a lot of recent support:
     ◦ Moving towards a Common "Business Logic" / Business Services API. (i.e. avoiding duplication of business logic in all UIs)
     ◦ Metadata For All (i.e. metadata on all objects), SubTopic: Getting us up-to-date how we use Dublin Core / DCMI. (Support from DCAT)
     ◦ AuthN & AuthZ issues, including: DS-994, DS-1006, DS-1007, DS-1088, and developer meeting on May 2, 2012
   • Other DSpace projects receiving mention recently
     ◦ Migrate Search and Browse to DSpace Discovery
     ◦ "Change which UIs come out-of-the-box" (and which are optionally installed later)
     ◦ Move configurations to DB or similar (so they can be managed/edited from Admin UI)
     ◦ Context Guided Ingest (or Item Type based submissions)
     ◦ Other Development Proposals

Individual Status Updates

If you have status items to report, please enter them below at least 1 hour before the meeting starts.

Meeting Notes

Meeting Transcript
