DevMtg 2018-04-04
Developers Meeting on Weds, April 4, 2018

Today’s Meeting Times

1. DSpace Developers Meeting / Backlog Hour: 15:00 UTC in #duraspace IRC or #dev-mtg Slack channel (these two channels sync all conversations)
   - Please note that all meetings are publicly logged

Agenda

Quick Reminders

Friendly reminders of upcoming meetings, discussions etc

- DSpace 7 Working Group (2016-2023): Next meeting is April 5 at 14:00 UTC (note new time) in DSpace Meeting Room. See wiki page for meeting details and past meeting notes.
- DSpace Entities Working Group (2017-18): Next meeting is TBD. See wiki page for meeting details and past meeting notes.
- Video from yesterday’s meeting available at 2018-04-03 DSpace Entities WG Meeting Notes

Discussion Topics

If you have a topic you’d like to have added to the agenda, please just add it.

1. Facilitator for next week (April 11 at 20UTC)? (Tim has a conflict – DuraSpace Summit meeting – and is unable to attend)
2. DSpace Entities Working Group - quick updates
   a. Discussion in DSpace Entities WG meeting centering around option #3: https://docs.google.com/document/d/1exm_xLToxUMszOvX5iSMFTn5eiGCdgl0Mf522GjHJ/edit#heading=h.bhq44wdzzis0
   b. DSpace Steering to discuss later today. Additional discussion at DuraSpace Summit next week (April 10-11)
   c. Final decision may not be to select a single proposal “as-is”, but to create a community project inspired by one of these proposals. So, even once a selection is made, there will be opportunity for ongoing community feedback to enhance/improve the final result.
3. (Ongoing Topic) DSpace 7 Status Updates for this week
   a. DSpace 7 Community Sprints are in planning phase.
   b. DSpace 7 Working Group (2016-2023) is currently concentrating on building out search, submission, authentication and MyDSpace functionality
   c. DSpace 7 Dev Status spreadsheet: https://docs.google.com/spreadsheets/d/18brPF7cZy_UKyg97Ta44UJg5Z8OwJG7PLoPJVz-g3g/edit#gid=0
4. (Ongoing Topic) DSpace 6.x Status Updates for this week
   a. (NEW) DSpace 6.3 Release Planning has begun (thanks to Kim Shepherd)
   b. We could use your support! See also the call for participation on all lists: https://groups.google.com/d/msg/dspace-tech/pBy714dGqU0/MGszGDCYAgAJ
5. Tickets, Pull Requests or Email threads/discussions requiring more attention?
   a. Unable to locate Jira server for this macro. It may be due to Application Link configuration.
   b. Unable to locate Jira server for this macro. It may be due to Application Link configuration.
   c. DSpace 6 performance issues with items containing a lot of bitstreams?

Tabled Topics

These topics are ones we’ve touched on in the past and likely need to revisit (with other interested parties). If a topic below is of interest to you, say something and we’ll promote it to an agenda topic!

1. Management of database connections for DSpace going forward (7.0 and beyond). What behavior is ideal? Also see notes at DSpace Database Access
   a. In DSpace 5, each “Context” established a new DB connection. Context then committed or aborted the connection after it was done (based on results of that request). Context could also be shared between methods if a single transaction needed to perform actions across multiple methods.
   b. In DSpace 6, Hibernate manages the DB connection pool. Each thread grabs a Connection from the pool. This means two Context objects could use the same Connection (if they are in the same thread). In other words, code can no longer assume each new Context() is treated as a new database transaction.
   i. Should we be making use of SessionFactory.openSession() for READ-ONLY Contexts (or any change of Context state) to ensure we are creating a new Connection (and not simply modifying the state of an existing one)? Currently we always use
Ticket Summaries

1. Help us test / code review! These are tickets needing code review/testing and flagged for a future release (ordered by release & priority)

<table>
<thead>
<tr>
<th>key</th>
<th>summary</th>
<th>type</th>
<th>created</th>
<th>updated</th>
<th>assignee</th>
<th>reporter</th>
<th>priority</th>
<th>status</th>
<th>fixversions</th>
</tr>
</thead>
</table>

Unable to locate Jira server for this macro. It may be due to Application Link configuration.

2. Newly created tickets this week:

<table>
<thead>
<tr>
<th>key</th>
<th>summary</th>
<th>type</th>
<th>created</th>
<th>assignee</th>
<th>reporter</th>
<th>priority</th>
<th>status</th>
</tr>
</thead>
</table>

Unable to locate Jira server for this macro. It may be due to Application Link configuration.

3. Old, unresolved tickets with activity this week:

<table>
<thead>
<tr>
<th>key</th>
<th>summary</th>
<th>type</th>
<th>created</th>
<th>updated</th>
<th>assignee</th>
<th>reporter</th>
<th>priority</th>
<th>status</th>
</tr>
</thead>
</table>

Unable to locate Jira server for this macro. It may be due to Application Link configuration.

4. Tickets resolved this week:

<table>
<thead>
<tr>
<th>key</th>
<th>summary</th>
<th>type</th>
<th>created</th>
<th>assignee</th>
<th>reporter</th>
<th>priority</th>
<th>status</th>
<th>resolution</th>
</tr>
</thead>
</table>

Unable to locate Jira server for this macro. It may be due to Application Link configuration.

5. Tickets requiring review. This is the JIRA Backlog of “Received” tickets:

<table>
<thead>
<tr>
<th>key</th>
<th>summary</th>
<th>type</th>
<th>created</th>
<th>updated</th>
<th>assignee</th>
<th>reporter</th>
<th>priority</th>
</tr>
</thead>
</table>

Unable to locate Jira server for this macro. It may be due to Application Link configuration.
