**DevMtg 2012-05-02**

**Developers Meeting on Weds, May 2, 2012**

**Agenda**

**Regular Items**

- **JIRA Catch-Up** – starting with issue DS-1006
  - Search for all Unresolved Issues (since DS-1006)

**Reminder:** The (Face-to-Face) DSpace Developers Meeting at OR12 in Edinburgh will more than likely be on Monday, July 9.

**Discussion Topics**

1. **Listserv activity:** Is there more we should all be doing to chip in? Seems like most questions now being answered by helix84 (thanks helix84!).
2. **3.0 Release Planning**
   - Scheduling a 3.0 "Special Topic" meeting (via Skype) - May 9 or 16
   - New dspace-release list is geared towards planning this release. Anyone can join, but discussions will be specific to release planning & administrative discussions.
3. **GitHub Migration**
   - Already hit by Line Ending issues in one merge (See last few comments in: https://github.com/DSpace/DSpace/pull/4). Do we need to all ensure we are following Line Ending Guidelines similar to those for Fedora:
   - Tim updated DSpace + NetBeans IDE instructions for Git/GitHub. We could use similar updates for IDEA and Eclipse (any volunteers?)
   - Any "best practices" we’d like to start with and add to: Development with Git
4. **Other topics?**

**Additional Ongoing Topics**

1. **Brainstorming Features/Changes for 3.0. Can we work towards development teams around any of these projects?**
   - Larger DSpace projects which seem to have a lot of recent support:
     - Moving towards a Common "Business Logic" / Business Services API. (I.e. avoiding duplication of business logic in all UIs)
     - Metadata For All (i.e. metadata on all objects), SubTopic: Getting us up-to-date how we use Dublin Core / DCMI. (Support from DCAT)
   - Other DSpace projects receiving mention recently
     - Migrate Search and Browse to DSpace Discovery
     - "Change which UIs come out-of-the-box" (and which are optionally installed later)
     - Move configurations to DB or similar (so they can be managed/edited from Admin UI)
     - Context Guided Ingest (or Item Type based submissions)
     - Other Development Proposals
