<td>2. Is it a good idea to have this submission form for anyone to suggest a blog post or news item for an upcoming ARKA newsletter?</td>
<td>Julien Antoine Raemy</td>
<td>basically, the form wasn't really used at the beginning but now it is. It used to be four newsletters per year, but now it's about one IIIF newsletter per month.</td>

Roxana Maurer: How to announce to people/communities who don't know anything about ARKs?
PID guides from which ARK is missing

from PIDapalooza talk: How to get heritage organisations to start using PIDs: a tale of two countries, about two national PID projects:

- Persistent Identifiers as IRO Infrastructure in UK
  - Next step: write a guide to help with choosing persistent identifiers (until October 2021)
  - Contact person: Frances Madden (British Library), Research Identifiers Lead & overseeing the BL’s contribution to the FREYA project
- Persistent Identifier Guide in The Netherlands
  - they wrote documentation & a guide for helping institutions choose a PID
  - ARK is not among the options
  - Contact person: Remco van Veenendaal (National Archives of the Netherlands), Project Manager Persistent Identifier project

It might be a good idea for the Outreach group to get involved and contact the people involved in the 2 projects, so that ARK gets included in the list of possible options for PID. If people don’t hear about it, they’re never going to choose it.

Furthermore, they also mentioned a European project that also had as a delivery a guide for choosing PIDs: FREYA Project (Connected Open Identifiers for Discovery, Access and Use of Research Resources) - Guides to Choosing Persistent Identifiers - Version 3 (July 2020), where, once again, ARK is not among the options. Even though the project seems to be finished, someone from the Outreach group could still inquire whether a new version of the guide is possible and try to include ARK in the list.

Needed: a group of “editors” to solicit, refine, enter text for, and (sometimes) author short pieces and announcements for the ARKA blog. Target frequency TBD – six times a year?

ARX Wikipedia page revisited

- build on S. Peyrard’s (former WG member) work on the comparison of the French and English pages, and the proposed structure: ARK Wikipedia page, French / English version.

More targeted outreach is needed - i.e. communicating with vendors.

Roxana Maurer that is based on her recommendations that ARKs could be implemented at the BiL. We also need to target some key people within organisations.

Tracy Seneca It could be very useful to include a PID-related workshop to the SAA curriculum (https://www2.archivists.org/prof-education/das/course-list)

Roxana Maurer The Digital Preservation Coalition (DPC) will launch a training on access in spring. Roxana will check if PID and ARK can be included.

Maria Gould Not all suggestions could be added to the FREYA Guide. Also, this project is done.

Action items

- John Kunze To contact Frances Madden.
- John Kunze Add link to blog submission form to blog page.
- Roxana Maurer Will ask DPC about listing ARKs in their handbook.
- Tracy Seneca To have a look at how contributions will be handled for iPRES 2021.
- Roxana Maurer to write a small section/piece about ARKs and transition to new spec and send it to John Kunze

No time for this.
