Advisory Group

The Advisory Group (AG) will provide a means for transitioning the ARK infrastructure (specification, NAAN registry) from the California Digital Library (CDL) to a community supported and managed activity. Planning is underway for an initial meeting of the group to review the goals, proposed timetable and roles drafted so far, as well as to launch working groups dedicated to pursuing objectives related to outreach, technical best practices, and sustainability.

ARK Alliance AG members:

- John Chodacki (California Digital Library)
- Ricc Ferrante (Smithsonian Institution Libraries and Archives), alternate Martin Kalfatovic
