Change+overall+layout

The screenshot shows the DSpace website interface. A red border highlights the layout structure. The **Header** (top) contains the DSpace logo and 'About DSpace Software'. The **Location Bar** (top right) shows 'DSpace at My University >'. The **Navigation Bar** (left side) includes search options (Advanced Search, Subject Search), navigation links (Home, Communities & Collections, Titles, Authors, Subjects, By Date), and user options (Sign on to: Receive email updates, My DSpace authorized users, Edit Profile, Help, About DSpace). The main content area features a 'DSpace is Live' message, a search form, and 'Communities in DSpace' links. The **Footer** (bottom) includes the W3C XHTML 1.0 logo, copyright information (DSpace Software Copyright © 2002-2007 MIT and Hewlett-Packard - Feedback), and RSS feeds.

Files:

[dspace-source/jsp/local/layout/.jsp](#)

- [dspace-source/jsp/local/styles.css.jsp](#)

Instructions:

1. Change the HTML in header-default.jsp (Default Header) , footer-default.jsp (Default Footer), location-bar.jsp (Location Bar), navbar.jsp (Default Navigation Bar), and navbar-admin.jsp (Admin Navigation Bar).
2. Change the CSS in styles.css.jsp.
3. Perform the steps in [Rebuild DSpace](#) .

Notes:

- Be careful of moving the search form (in the navigation bar) earlier in the page (e.g. to page-top). This can break the e-person selector in the Administration user interface. Check the DSpace [TechnicalFAQ](#) for possible fixes.
