Welcome to the Islandora documentation space. This documentation is being constantly updated and refined, along with the Islandora stack. For static documentation matching a particular release, please select your version from the sidebar menu.

This documentation space is for Islandora 7.x, which pairs Drupal 7 with Fedora 3. [Islandora CLAW](#) (formerly known as Islandora 7.x-2.x) is the next generation of Islandora. Still in development, this major upgrade will be compatible with [Drupal 8](#) and [Fedora 4/5](#). Notes and documentation for Islandora CLAW can be found on [GitHub](#).
