Upgrading From 1.1 to 1.1.1

Upgrade Steps

Fortunately the changes in 1.1.1 are only code changes so the update is fairly simple.

1. Take down Tomcat.
2. It would be a good idea to update any of the third-party tools used by DSpace at this point (e.g. PostgreSQL), following the instructions provided with the relevant tools.
3. In [dspace-1.1.1-source] run:

   ```
   ant -Dconfig= [dspace]/config/dspace.cfg update
   ```

4. If you have locally modified JSPs of the following JSPs in your [dspace]/jsp/local directory, you might like to merge the changes in the new 1.1.1 versions into your locally modified ones. You can use the `diff` command to compare the 1.1 and 1.1.1 versions to do this. The changes are quite minor.

   ```
   collection-home.jsp
   admin/authorize-collection-edit.jsp
   admin/authorize-community-edit.jsp
   admin/authorize-item-edit.jsp
   admin/eperson-edit.jsp
   ```

5. Restart Tomcat.
