ArcLight MVP

Overview

The ArcLight MVP work cycle is a focused, eight week effort (April 10–June 2, 2017) to prototype some of the features and designs identified during the ArcLight Design Process. Like the design process, the MVP work cycle is a community-based project. Stanford’s overall goal is to build a compelling minimum viable product informing future work on future versions of ArcLight and as an early prototype for a Stanford-focused environment to support discovery of archival materials. Michigan’s overall goal is to develop a successor to their current DLXS-based platform for finding aids. For broader context, please review the work cycle’s inception deck.

Timeline and Milestones

The three major milestones identified for this work cycle so far are:

- April 7: Stanford kickoff meeting
- April 10: Start of first sprint
- June 2: End date of eighth and final sprint

Meeting schedule and communication channels

Unless otherwise noted, all meetings are held on BlueJeans: https://bluejeans.com/921938965

- Sprint planning meeting: Mondays, 10:00-11:30 AM PDT (GMT-7)
- Standup: Tuesdays-Fridays, 10:15-10:30 AM
- Sprint close (demos, retrospective, and standup): at the start of Sprint planning starting on Week 2

The primary communication channels for the MVP across partners and the community are the #arclight channel on Code4lib Slack and the arclight-community Google Group.

Contributors

- **Core team**
  - Mark Matienzo (Stanford), as Product Owner (~80%)
  - Jessie Keck (Stanford), as Technical Lead and Developer (100%)
  - Darren Hardy (Stanford), as Developer (100%)
  - Gordon Leacock (Michigan), as Developer (80%)
  - Jack Reed (Stanford), as Developer (100%)
  - Gary Geisler (Stanford), as UX Designer (~50%)
  - Jennifer Vine (Stanford), as UX Designer (~50%)
  - Erin Fahy (Stanford), as DevOps Liaison
  - Tom Cramer (Stanford), as Management Liaison
  - Nabeela Jaffer (Michigan), as Management Liaison

- **Stakeholder representatives**
  - Stanford
    - Stu Snyderman, Digital Library Systems and Services
    - Laura Wilsey, Digital Library Systems and Services
    - Jenny Johnson, Special Collections and University Archives
    - Michelle Paquette, Special Collections and University Archives
    - Frank Ferkoh, Archive of Recorded Sound
    - Charles Fosselman, East Asia Library
    - Sarah Patton, Hoover Institution Archives
  - University of Michigan
    - Mike Shalik, Bentley Historical Library
    - Max Eckard, Bentley Historical Library
    - Dallas Pilien, Bentley Historical Library
    - Roger Espinosa, Digital Library Platform & Services
    - Tom Burton-West, Digital Library Platform & Services
    - Chris Powell, Digital Library Platform & Services
  - Rockefeller Archives Center
    - Hillel Arnold
    - Bonnie Gordon
    - Patrick Galligan
  - National Library of Medicine
    - John Rees
• Georgia Tech
  • Wendy Hagenmaier
