**Give DSpace a test run before you install it!**

http://demo.dspace.org is a live installation of the latest version of DSpace software.

This demo site is configured such that the maximum number of DSpace features is enabled, so that you can get a sense of all the various things that DSpace can do. We provide a variety of public logins (for various DSpace “roles”) in the introductory paragraph of the XMLUI and JSPUI demo interfaces.
