Notes:

GitHub Groups in Samvera org

- Groups haven’t been maintained and people in the groups may be out of date
- How can we maintain these lists so we aren’t spamming folks?
- GitHub calls these ‘teams’.
- Maybe have product owners handle team membership
- Are these used to manage permissions?
  Tom may send out a message to community to gather interest for maintaining these groups

Valkyrie Indexing Adapters in Hyrax

- Valkyrie Indexing adapter is on master

- Now is a good time for feedback
- One PR is open for this currently:
  - https://github.com/samvera/hyrax/pull/4162
  - https://github.com/samvera/hyrax/pull/4026
  - https://github.com/samvera/hyrax/pull/4148

GeoWorks

- Call for depreciation
  - https://groups.google.com/forum/#!topic/samvera-tech/x2nrbTfOBOw
- Not actively being maintained and a lot of work would need to be done to update it to modern Hyrax

Documentation Interest Group

- 9 respondents
- Two folks volunteered, 5 maybe, 2 no
- Charter will be sent out sometime this week

Hyrax Permissions Group CFP

- Call for people to participate
- Originated at a Samvera Connect unconference
- Looking for developers that would like to create a plan of action
- Looking to start soon

Core components group is looking for a chair.
