Hyrax Permission Working Group 2020-03-30

Attendees
Jeremy Friesen Maria Whitaker JP Engstrom Jon Cameron Chris Colvard LaRita Robinson

Agenda
Discuss Deliverables and Timeframe to determine next steps for the group.

- Notch8 has what it needs to proceed with its Hyku for Consortia permission work.
- There are permission issues regarding Avalon, that need resolution. But the roadmap for Avalon shifted. The permission work is still desired and not pressing.
- We recognize that the Valkyrie work is our greater community need.
- Plan: write up close-out report, spin down working group, and launch an interest group which meets monthly.
