SC18 - Wireless Network Information

The University of Utah is a member of the eduroam initiative. Samverans who belong to the eduroam initiative will have full access to the University of Utah wireless network infrastructure while on campus. If you have not used the eduroam network before, you can find installation and connection information [here](#).

Not sure if your organization is a member? You can view eduroam members [here](#).

If your organization is not a member, don’t worry we have you covered. The University of Utah provides guest access to a restricted wireless network (throttled). More information about how to connect to the network can be found [here](#).

Additional Information about the Wireless networks available at the University of Utah:

- Information about the Eduroam Network
- Information about UGuest Network (Note: If you did NOT use the self-service via SMS option, your bandwidth will be limited)
