DPG tasklist

- Prioritized list of tools we get from OPF/others that we would like to be integrated/wrapped for use in the Hydra environment
- Clarify the working area of the DPWG and the "Hydra for archivists" working group
- Insert information about digital preservation requirements and "use cases" from the DPWG participants
- Ask for a list of tools already integrated into the Hydra environment
- Focus on integrating preservation tools in the Hydra environment
  - Focus on practical implementation of one or a few tools
- To ensure that we don't integrate already integrated/wrapped tools we need a list of integrated tools
