Samvera Events Calendar

The calendar shows Samvera events and also third-party events which are likely to involve a significant number of people from our Community.

N. B. If you are not logged in to this wiki page as a registered contributor, times will be shown on the calendar as 'US Central'.

If you are a logged-in contributor, please read the notes below the calendar to ensure that your time-zone is set correctly such that you see correct times in your locale.

Team Calendars

If you are a logged-in wiki contributor, in order that the time renders correctly for your locale you must ensure that your time zone is correctly specified under ‘settings’ in your user menu at the right-hand end of the DuraSpace menu bar above (in the desktop version). Detailed instructions can be found here in the Confluence documentation.
