Notes

Doodle Poll Scheduling

- (Completed during the call)
- There were almost no times where everybody is available
- Two weeks were proposed by Pendragon:
  - 08/13 - 08/17
  - Also, either the weeks of 09/17 or 09/24
    - 09/17 is Pendragon's preference
  - Johnson wouldn't be able to join week of 08/13, but won't be completely offline
  - 08/13 - 08/17 and 09/17 - 09/21 were set for the two sprints

Update on the proposal on hydra-jetty and jetty-wrapper

- om is a dependency of hydra-works
  - Used to parse the FITS technical output
    - Good case not to deprecate it
    - But, it needs one of use to serve as product owner
    - Sadler in the CCMWG is interested in seeing it maintained
  - Pendragon will send out e-mail and ask for a product owner for the om Gem

Update on deprecation e-mail for Sufia and Curation Concerns

- Pendragon still needs to send the e-mail

E-mail to communicate with stakeholders on samvera-tech

- Griffin will send
  - We've made these labels inside the projects, if there are things which are maintenance related, please add the label and communicate over Slack

Outstanding actionable items

- Johnson will return to the label colors on the Waffle board
