  Trey Pendragon, Princeton University and James R. Griffin III, Princeton University
- Documenting our Metadata Application Profiles (MAPS) Before Migration
  Julie Hardesty, Indiana University and Ruth Tillman, Penn State University
- How are people using workflows and Admin Sets in production Hyrax systems? bleep bloop
  Steven Van Tuyl, Oregon State University and friends
- Hyrax for Research Data: Deep Blue Data
  Susan Borda, University of Michigan and Nabeela Jaffer, University of Michigan
- Institution-specific Front-end Implementations of Hyrax
  Adam Arling, Northwestern, Chris Diaz, Northwestern, and Nabeela Jaffer, University of Michigan
- Intro to Terraform by building a Samvera stack
  Kieran Esenne, Penn State University, and Erin Fahy, Stanford University
- Lessons Learned From 100 Releases
  Carolyn Cole, Penn State University
• Lookup with Context to select metadata values from a controlled vocabulary
  E. Lynette Rayle, Cornell University

• Metadata management and batch ingest automation with Git/GitHub, Jenkins, Ansible, and JiRA
  Alex Dunn, University of California, Santa Barbara and Chrissy Rissmeyer, University of California, Santa Barbara

• Our Journey from Sufia 7 to Hyrax
  Sean Crowe, University of Cincinnati, Glen Horton, University of Cincinnati, and Thomas Scherz, University of Cincinnati,

• Samvera/Blacklight UX benchmarks
  Nik Dragovic, Emory University

• Upcoming changes in the architecture of Samvera
  Justin Coyne, Stanford

Panel Presentations (60 min)

• APIs, Sharing Work, Specifications and Alternative Data Stores
  Benjamin Arminton, Columbia University and Trey Pendragon, Princeton University

• Distributed Usability Research Team Retrospective
  Jenn Colt, Cornell University, Nik Dragovic, Emory University and David McCallum, University of Oregon

• Fedora project and community update
  David Wilcox, DuraSpace and Andrew Woods, DuraSpace

• Hyrax for Scanned Resources
  Jenn Colt, Cornell University and Trey Pendragon, Princeton University

• Moving to AWS
  Don Brower, Notre Dame, Carolyn Caizzi, Northwestern University, Erin Fahy, Stanford University, Hannah Frost, Stanford University, Michael Klein, Northwestern University, and David Schober, Northwestern University

• Samvera and Digital Preservation
  Laura Alagna, Northwestern University, Linda Newman, University of Cincinnati, and David Wilcox, DuraSpace

• Samvera and Fedora 4 Performance
  Yinlin Chen, Virginia Tech and Adam Wead, Penn State University

• Samvera stack in production the DevOps way
  Rob Kaufman, Notch8

• Samvera Stack Overview
  Rob Kaufman, Notch8

• So how’s your migration going?
  Aaron Collier, Stanford University, Jeremy Friesen, Notre Dame, Josh Gum, Oregon State University, Julie Hardesty, Indiana University, and Steven Van Tuyl, Oregon State University

• What should we be testing? Features, Views, Models, Controllers?
  Jeremy Friesen, Notre Dame and friends

Lightning Talks

• Sign-up list
• Additional opportunities to sign-up at Connect

Thursday, Nov 9

• Unconference and Breakouts
  • Governance Community Discussion, Evviva Weinraub, Associate University Librarian of Digital Strategies at Northwestern University
  • Imposter Syndrome Workshop, Bess Sadler, Data Curation Experts
  • Additional opportunities to suggest at Connect

• WG and IG meetings
  • Analytics IG
  • Data Mapper (Valkyrie) WG
  • Geospatial IG
  • GeoPredicates WG
  • Metadata IG
  • Newspaper IG
  • Repository Managers IG
  • Samvera Migrations IG
  • User Experience IG

• Partners Meeting at Northwestern

Friday, Nov 10

• Partners Meeting at Northwestern
