Metadata Call 2016-09-21
**Time:** 10:00 am PST / 1:00 pm EST  
**Call-In Info:** +1 (641) 715 3660, access code 651025

**Moderator:** Steven Anderson (BPL)  
**Notetaker:** Corey Harper (NYU)

**Attendees:** Steven Anderson (BPL), Corey Harper (NYU), Arwen Hutt (UCSD), Alicia Morris (Tufts), Chrissy Rissmeyer (UCSB)

**Agenda**

- Subgroup Reports
  - **Descriptive Working Group**
    - No recent meeting
  - **MODS and RDF Descriptive Metadata Subgroup**
    - Reviewed access description from rights working group
    - Predominately EDM rights with URI & DC Rights for anything else, including clarifying text
    - Not always supporting rightsholder, but will support if it exists
    - Will be sending out another poll today or tomorrow for remaining issues with collab doc
      - eg. dcterms spatial with URI, as example. Geo Concerns will be using string labels. This would be a conflict. How to handle?
    - Final set of institutional mappings for remaining elements in 4 weeks.
    - This will be followed by final review, at which point mapping should be complete
  - **Applied Linked Data Working Group**
    - No recent meeting.
    - Email about interest in meeting. Haven't heard back.
    - Unsure when we'll meet next
    - David Lacy & Corey Harper will both help with the workshop
  - **URI Management Working Group**
    - Notes available on wiki
    - Predicate decision tree document that people have been commenting on
    - Discussion of URI patterns to be used for those predicates
- **Issues/Questions**
  - None
- **Additional items**
  - **Hydra Connect 2016 HMIG Meeting agenda**
    - Thursday, Oct 6, 2-3pm Eastern
    - Comments on agenda?
      - Is it worth explicitly discussing sunsetting?
      - Why the limited participation?
    - Too much else going on in the community
    - Other things that we're waiting on, such as DPLA decisions re: metadata, etc
      - Consensus on this call is that a Metadata Interest Group is still of importance
      - Changing frequency & focus could be helpful
- **Action Item**
