

# Hyrax Working Group

## Charge:

The Hyrax Working Group is charged with supporting core maintenance and development for Hyrax in order to provide a stable base of support for the solution bundle. This working group is not meant to be a replacement for community-led development efforts and/or contributions, but rather, it is meant to augment such efforts and release community members who are not part of the working group from the responsibilities around maintenance of Hyrax.

## Team:

January, 2019-June 2019:

Name	Institution	Role	FTE	Notes
Steve Van Tuyl	Oregon State University	Product Owner	0.2	as part of overall 0.2 FTE as product owner
