A Future comparison table of DSpace and Digital Commons Bepress

- Should include features and functionality of both systems
- discussed as a way to highlight desirable Bepress features that might be replicable in future DSpace releases.
 - This comparison will not be part of the current What's in DSpace 7 doc
 - Should include features, what they expose, features that are missing
 - Example of a Bepress comparison from the Samvera community (incomplete): [Digital Commons Feature Matrix](#)
 - Felicity has contacts who are Bepress users who might be willing to work with us
