3:30 - 4:00	Discussion and Wrap-up	
-------------	------------------------	--

Summary

This Fedora User Group meeting will be held immediately following the PASIG conference. All Fedora users, including anyone thinking about adopting Fedora, are encouraged to attend. The meeting will include a mix of project updates from the community and presentations on Fedora 4 from members of DuraSpace and the Fedora Steering Group.

This is a community-driven event, so attendees are encouraged to give short (5 minutes) or long (15-20 minutes) presentations on project updates, new initiatives, or other topics of interest. This is a great opportunity to find out what other community members are working on and engage with potential collaborators. The agenda will be finalized over the next few weeks based on community submissions and suggested topics.

Space is limited, so please [register in advance](#) to reserve your seat. Don't forget to sign up for a presentation and suggest topics you'd like to discuss or learn about.
