About LD4P3

Welcome to the wiki for LD4P3 Linked Data for Production: Closing the Loop. With support from the Andrew W. Mellon Foundation, LD4P3 aims to "close the loop" to create a working model of a complete cycle for library metadata creation, sharing, and reuse. LD4P3 builds on the foundational work of LD4P2: Pathway to Implementation, LD4P Phase 1, and Linked Data for Libraries Labs (LD4L Labs).

The LD4P3 partners—Cornell University, Stanford University, and the University of Iowa's School of Library and Information Science—in collaboration with SHARE-VDE, the Library of Congress, and the Program for Cooperative Cataloging (PCC), focus their efforts in 5 areas, detailed below.

About LD4P3 (July 1, 2020 - June 30, 2022)

- Project proposal
- LD4P3 announcement
- Presentations and publications about LD4P3
- Public Google drive

Partner Resources

- Partner docs (internal Google drive)
- Kickoff meeting notes
- Partner communication channels

Project Timeline

Proposal Appendix: Timeline

WP 1: Expansion of the Sinopia Environment
WP2: Production LD Authority Support

- Questioning Authority code repo
- Search API Best Practices for Authoritative Data Working Group (Lynette Rayle)

WP 3: Discovery

- "On the ground" discussions and work

WP 4: Expansion of PCC Involvement

- PCC Task Group to Support Expansion of PCC Cataloging in Sinopia (charge)
- PCC Task Group on PCC Sinopia Application Profiles (charge)

WP 5: Sustainability & Community

- 2020 LD4 Conference on Linked Data in Libraries
- LD4 public Slack (join link)
- LD4 Community including Affinity Groups
- Sustainability of tools and data environment (future)

This project follows the LD4P Community Participation Guidelines.
