

# Start

Welcome to the Islandora documentation space. This documentation is being constantly updated and refined, along with the Islandora stack. For static documentation matching a particular release, please select your version from the sidebar menu.

This documentation space is for Islandora 7.x, which pairs Drupal 7 with Fedora 3.x. [Islandora 8](#) (formerly known as Islandora 7.x-2.x or Islandora CLAW) is the next generation of Islandora, compatible with [Drupal 8](#) and [Fedora 5](#). Documentation for Islandora 8 can be found on [GitHub Pages](#).

Additional modules developed by members of the Islandora community to extend Islandora can be found on the curated [Islandora Awesome](#) list.
