

Use Cases

Use Cases Wanted!

The DSpace community is encouraged to add use cases in the format detailed below by creating a new sub-page from this wiki page. In order to ensure that the community's needs are reflected in the software, this input is critical.

Also, please review the existing use cases here and comment on or "like" ones as you see fit.

Analysis of these use cases has begun on the [Use Case Analysis](#) page. But, feel free to continue to add or enhance these use cases, as we are "watching" any changes in this space.

Use case template (from [Wikipedia](#)): [Create New Use Case \(from template\)](#)

| | |
|---|--|
| Title (Goal) | (E.g. "DSpace should allow for bulk uploads via the UI") |
| Primary Actor | (E.g. End User or Administrator or external system) |
| Scope | (Optional – notes the perceived design scope. For example, does this use case describe the needs of the overall system or an individual component) |
| Level | (Optional – a general categorization of whether the use case is a very high level summary or almost too low level) |
| Story (A paragraph or two describing what happens) | (Describe the use case, user needs, expectations in as much detail as you can) |

Existing Use Cases

For each use case, add a sub-page from this wiki page (click the "Create" button at the top of this page). It will automatically appear in the below list.

NOTE: In order for the use case to appear under a category heading, you must apply a category label

Categorized Use Cases

End User: use cases relating to how end users interact with the system (e.g. deposit, download, search)

| Title | Creator | Modified | |
|---|--------------------------------------|--------------|--------|
| Give Collections/Communities short names/acronyms | Monika Mevenkamp | Sep 11, 2017 | |
| End User - Item editing by original submitters | Bram Luyten (Atmire) | May 31, 2017 | 3 1 |
| Admin UI - Configure hidden communities and collections | Terrence W Brady | May 25, 2017 | 4 2 |
| End User - Enhanced access to related items | Bram Luyten (Atmire) | May 24, 2017 | 3 2 |
| End User - Search for items | Sarah Shreeves | Mar 01, 2017 | 6 1 |
| End User - Browse | Sarah Shreeves | Mar 01, 2017 | 1 1 |
| End User - Image file display (pan, zoom, size options) | Maureen Walsh | May 12, 2015 | 3 1 |
| Structure - Apply licenses to bitstreams | Maureen Walsh | May 11, 2015 | 1 |
| Integrations - Linking to repository content through a learning management system | Ignace Deroost | Apr 27, 2015 | 1 1 |
| End User - Intelligent rendering of URL's in item Metadata | Terrence W Brady | Apr 14, 2015 | |

| | | | |
|---|----------------------|--------------|--------|
| Integrations - importing large files into repositories using an external system | Ignace Deroost | Apr 09, 2015 | |
| End User - Curated thumbnails | Ignace Deroost | Apr 09, 2015 | 2 |
| Integrations - Enrich metadata fields with external geographic information | Bram Luyten (Atmire) | Apr 06, 2015 | |
| Integrations - Linking to other data sources search for available data | Ignace Deroost | Apr 06, 2015 | 1 |
| Integrations - integrating with third party document streaming services | Ignace Deroost | Nov 19, 2014 | 1 |
| Integrations - Importing data from discipline-specific systems into DSpace | Ignace Deroost | Nov 19, 2014 | 1 1 |
| Integrations- Integrations that avoid registering information multiple times within the organisation | Ignace Deroost | Nov 19, 2014 | 1 |
| Integrations - Integrations that increase the exposure of content stored into DSpace in external systems | Ignace Deroost | Nov 19, 2014 | |
| Integrations - Integrations that significantly lower the effort to fill DSpace with content, both from in house systems and third party content | Ignace Deroost | Nov 19, 2014 | 2 |
| End User - Visitor can play media hosted on an external streaming media server | Terrence W Brady | Sep 09, 2014 | 2 |
| End User - Clear distinction between different types of contributor involvement | Bram Luyten (Atmire) | Aug 13, 2014 | 1 1 |
| End User - Visual collection browsing | Bram Luyten (Atmire) | Aug 13, 2014 | 3 3 |
| End User - Discovery and retrieval of content on mobile devices | Bram Luyten (Atmire) | Aug 13, 2014 | 1 |
| End User - Crowdsourcing metadata for archived items | Bram Luyten (Atmire) | Aug 13, 2014 | 3 1 |
| End User - In-browser page turner for accessing text based materials | Bram Luyten (Atmire) | Aug 13, 2014 | 2 1 |
| Stats/Metrics - Advanced Statistics | Sarah Shreeves | Apr 29, 2014 | 1 3 |
| End User - Flexible licensing | Sarah Shreeves | Apr 29, 2014 | 1 |
| End User - Batch Deposit | Sarah Shreeves | Apr 29, 2014 | 1 3 |
| End User - Easy and Intuitive Deposit Interface | Sarah Shreeves | Apr 29, 2014 | 4 |
| Stats/Metrics - Basic Statistics | Sarah Shreeves | Apr 29, 2014 | 2 1 |
| End User - Streaming Video Content | Tim Donohue | Apr 28, 2014 | 4 2 |
| Integrations - Support Standard Repository Machine Interfaces (OAI-PMH, SWORD, ResourceSync) | Richard Rodgers | Apr 25, 2014 | 1 |
| Integrations - Personal Identifiers (ORCID) | Richard Rodgers | Apr 25, 2014 | 1 |

Administrative: use cases relating to administrative functions or activities within the system (e.g. Admin UI functions)

| Title | Creator | Modified | |
|--|----------------------|--------------|-----|
| Admin UI - Change permissions of all the bitstreams in a bundle | Petya Kohts | Sep 11, 2017 | 1 |
| Give Collections/Communities short names/acronyms | Monika Mevenkamp | Sep 11, 2017 | |
| Admin-UI - "Login as" functionality | Jose Carvalho | Jul 05, 2017 | 1 |
| Admin UI - Configure hidden communities and collections | Terrence W Brady | May 25, 2017 | 4 2 |
| Admin UI - Rebuild the discovery index | Terrence W Brady | May 24, 2017 | 2 1 |
| Admin UI - Configure and manage custom facets | Terrence W Brady | May 24, 2017 | 1 |
| Admin UI - Configure and manage browse indexes | Maureen Walsh | May 24, 2017 | 3 |
| Admin UI - Permissions of a new user in an eperson group | Sabine Grinsven | May 24, 2017 | 1 |
| Admin UI - Access Rights on all levels of objects within the system | Maureen Walsh | Apr 12, 2017 | 1 |
| Integration - Integration with external authentication / authorisation system | Ignace Deroost | Apr 12, 2017 | |
| Integrations - Authentication through Multiple Mechanisms | Mark Diggory | Mar 15, 2017 | |
| Integrations - Support external authorities (ORCID) in Authority Cache | Mark Diggory | Dec 15, 2015 | 2 |
| Integrations - Support for external identifiers (ORCID) in the CSV Batch edit | Mark Diggory | Dec 15, 2015 | 1 |
| Admin UI - DSpace should accommodate basic index normalization | Hardy Pottinger | Jun 25, 2015 | 1 |
| Admin UI - Simplify Collection Creation Based on Template | Monika Mevenkamp | Jun 22, 2015 | |
| Structure - Format checking of data entry in input forms | Monika Mevenkamp | Jun 12, 2015 | 2 |
| Admin UI - Workflow overview | Bram Luyten (Atmire) | Jun 11, 2015 | 2 1 |
| Structure - Generated provenance for all added bitstreams | Maureen Walsh | May 11, 2015 | 1 |
| Structure - Apply licenses to bitstreams | Maureen Walsh | May 11, 2015 | 1 |
| Structure - Generate technical metadata per bitstream | Maureen Walsh | May 11, 2015 | 1 |
| Admin UI - System Alerts via Admin UI | Tim Donohue | Apr 28, 2015 | |
| Admin UI - Generate Handle before committing Item | Monika Mevenkamp | Apr 27, 2015 | 3 |
| Admin UI - Configurations in the admin UI | Sabine Grinsven | Apr 21, 2015 | 2 1 |
| Admin UI - Aids and tooltips in the UI | Sabine Grinsven | Apr 08, 2015 | 2 |
| Admin UI - Enhance the DSpace Curation System to Support a Flexible Query Tool | Terrence W Brady | Apr 06, 2015 | 5 1 |

| | | | |
|---|--------------------|--------------|-----|
| Integrations - Use of multiple sorts of Direct Object Identifiers | Ignace Deroost | Nov 19, 2014 | |
| Admin UI - Ability to specify the emphasis of a collection through GUI | Sabine Grinsven | Sep 10, 2014 | 2 |
| Admin UI - Apply an input-form to the collection through the GUI | Sabine Grinsven | Sep 10, 2014 | 2 1 |
| Admin UI - Apply an existing theme to a collection or community through the GUI | Sabine Grinsven | Sep 10, 2014 | 1 3 |
| Admin UI - Customise which metadata fields to facet upon, search upon | Sabine Grinsven | Sep 10, 2014 | 1 1 |
| Admin UI - Alter messages easier | Sabine Grinsven | Sep 10, 2014 | |
| Admin UI - Manage home page | Maureen Walsh | Sep 10, 2014 | 2 3 |
| Admin UI - Configure and Manage changes during an update | Sabine Grinsven | Sep 10, 2014 | 1 |
| Admin UI - Changing / Editing OAI crosswalks | Sabine Grinsven | Sep 10, 2014 | |
| Admin UI - Updating a Workflow group | Sabine Grinsven | Sep 10, 2014 | 1 |
| Admin UI - Allow collection administrators to perform bulk metadata import | Anonymous | Sep 09, 2014 | 1 |
| Admin UI - Collection Admin can construct a Quality Control report | Terrence W Brady | Sep 09, 2014 | 3 |
| Admin UI - Collection Admin can select fields to include in metadata export | Terrence W Brady | Sep 09, 2014 | |
| Admin UI - Quality Control Reports | Terrence W Brady | Sep 09, 2014 | 3 1 |
| Admin UI - Clear the OAI Cache | Terrence W Brady | Sep 09, 2014 | 1 |
| Admin UI - Rebuild the OAI index | Terrence W Brady | Sep 09, 2014 | |
| Admin UI - Move a community | Terrence W Brady | Sep 09, 2014 | 1 |
| Admin UI - Move a collection and trigger a re-index | Terrence W Brady | Sep 09, 2014 | 1 |
| Admin UI - Trigger the re-index of a collection | Terrence W Brady | Sep 09, 2014 | 2 |
| Admin UI - Undo a bulk import from the User Interface | Terrence W Brady | Sep 09, 2014 | 1 |
| Admin UI - Workflow Overview Rejection | Tara Stephens-Kyte | Aug 14, 2014 | 1 |
| Stats/Metrics - Advanced Statistics | Sarah Shreeves | Apr 29, 2014 | 1 3 |
| End User - Batch Deposit | Sarah Shreeves | Apr 29, 2014 | 1 3 |
| Stats/Metrics - Basic Statistics | Sarah Shreeves | Apr 29, 2014 | 2 1 |
| Admin UI - Basic Preservation - Fixity Checking | Maureen Walsh | Apr 28, 2014 | |

| | | | |
|--|-----------------|--------------|-----|
| Admin UI - Approval workflows | Maureen Walsh | Apr 28, 2014 | 2 |
| Admin UI - Advanced Preservation - Format Migration | Maureen Walsh | Apr 28, 2014 | |
| Admin UI - Format reporting | Maureen Walsh | Apr 28, 2014 | 2 |
| Admin UI - Run batch load | Maureen Walsh | Apr 28, 2014 | 2 4 |
| Admin UI - Advanced Preservation - Format characterization | Maureen Walsh | Apr 28, 2014 | 2 |
| Admin UI - Basic Preservation - Format identification | Maureen Walsh | Apr 28, 2014 | 1 |
| Admin UI - Basic Preservation - Format validation | Maureen Walsh | Apr 28, 2014 | |
| Admin UI - Embargo functionality | Maureen Walsh | Apr 28, 2014 | 5 3 |
| Admin UI - Configuration edits to dspace.cfg | Maureen Walsh | Apr 28, 2014 | 2 |
| Admin UI - Manage controlled vocabularies | Maureen Walsh | Apr 28, 2014 | 3 1 |
| Admin UI - Theme management | Maureen Walsh | Apr 28, 2014 | 1 |
| Admin UI - Theme templates | Maureen Walsh | Apr 28, 2014 | 2 2 |
| Admin UI - Manage input forms | Maureen Walsh | Apr 28, 2014 | 2 1 |
| Admin UI - Change community/collection parent/child relationship | Maureen Walsh | Apr 28, 2014 | 1 2 |
| Admin UI - Run media filters | Maureen Walsh | Apr 28, 2014 | 4 2 |
| Admin UI - Database Driven Configuration Property Management | Mark Diggory | Apr 28, 2014 | 5 |
| Structure - Manage Lists, Controlled Vocabularies and Authority Control | Mark Diggory | Apr 26, 2014 | 3 2 |
| Integrations - Persistent Identifiers other than Handles (DOI) | Mark Diggory | Apr 26, 2014 | 1 |
| Integrations - REST API | Richard Rodgers | Apr 25, 2014 | 3 2 |
| Integrations - Support Standard Repository Machine Interfaces (OAI-PMH, SWORD, ResourceSync) | Richard Rodgers | Apr 25, 2014 | 1 |
| Integrations - Handle System Identifiers | Richard Rodgers | Apr 25, 2014 | 1 1 |
| Integrations - Search Engine Optimization | Richard Rodgers | Apr 25, 2014 | 1 |

Statistics / Metrics: use cases relating to metrics or statistics around stored content and its usage

| Title | Creator | Modified | |
|---|------------------|--------------|--------|
| Stats/Metrics - Allow repository admin to make usage statistics anonymous | Terrence W Brady | Apr 28, 2015 | |
| Stats/Metrics - More robust and configurable statistics reports | Sabine Grinsven | Apr 24, 2015 | 1 1 |
| Stats/Metrics - Clearly display item statistics and bitstream statistics | Terrence W Brady | Apr 06, 2015 | |
| Stats/Metrics - Categorize and count item page referrers (Google search, Google Scholar, repository full text search, repository facet search, repository browse, repository related item, external link) | Terrence W Brady | Apr 06, 2015 | 2 1 |
| Stats/Metrics - Include item usage statistics on public-facing item pages | Terrence W Brady | Apr 06, 2015 | |
| Stats/Metrics - Clearly identify whether statistics counts apply to an object or to an object and its descendants | Terrence W Brady | Apr 06, 2015 | |
| Stats/Metrics - Cumulative Counts for Community Pages | Terrence W Brady | Apr 06, 2015 | 2 1 |
| Stats/Metrics - Cumulative Counts for Collection Pages | Terrence W Brady | Apr 06, 2015 | 1 |
| Stats/Metrics - Convey collection hierarchy to Google Analytics | Terrence W Brady | Apr 06, 2015 | |
| Stats/Metrics - Distinguish full-text searches from faceted navigation | Terrence W Brady | Apr 06, 2015 | |
| Stats/Metrics - Configure the number of top searches to display | Terrence W Brady | Apr 06, 2015 | |
| Stats/Metrics - Clarify "Page Views per Search" | Terrence W Brady | Apr 06, 2015 | |
| Stats/Metrics - Export Usage Statistics | Terrence W Brady | Apr 06, 2015 | 1 1 |
| Stats/Metrics - View Statistics Collection by Collection and Community by Community | Terrence W Brady | Apr 06, 2015 | 1 1 |
| Stats/Metrics - Configure Date Ranges for Usage Reports | Terrence W Brady | Apr 06, 2015 | 1 2 |
| Stats/Metrics - Filter Usage by Referrer Domain | Terrence W Brady | Apr 06, 2015 | 2 1 |
| Stats/Metrics - View number of times an item has been included in search results | Terrence W Brady | Apr 06, 2015 | |
| Stats/Metrics - Advanced Statistics | Sarah Shreeves | Apr 29, 2014 | 1 3 |
| Stats/Metrics - Basic Statistics | Sarah Shreeves | Apr 29, 2014 | 2 1 |

Integrations: use cases relating to interactions with external systems (or programs), or providing the ability for external programs to integrate with DSpace

| Title | Creator | Modified |
|---|----------------|--------------|
| Integration - Integration with external authentication / authorisation system | Ignace Deroost | Apr 12, 2017 |
| Integrations - Authentication through Multiple Mechanisms | Mark Diggory | Mar 15, 2017 |

| | | | |
|---|----------------------|--------------|--------|
| Integrations - Support external authorities (ORCID) in Authority Cache | Mark Diggory | Dec 15, 2015 | 2 |
| Integrations - Support for external identifiers (ORCID) in the CSV Batch edit | Mark Diggory | Dec 15, 2015 | 1 |
| End User - Deposit entire item by email | Bram Luyten (Atmire) | Jul 21, 2015 | 1 |
| End User - Email Deposit of bitstream for archived metadata-only item | Bram Luyten (Atmire) | Jul 21, 2015 | |
| End User - Email Deposit of bitstream for automatically captured metadata | Bram Luyten (Atmire) | Jul 21, 2015 | 4 |
| Integrations - Streaming Image Server | Maureen Walsh | Jun 01, 2015 | 1 |
| Structure - Generate technical metadata per bitstream | Maureen Walsh | May 11, 2015 | 1 |
| Integrations - Linking to repository content through a learning management system | Ignace Deroost | Apr 27, 2015 | 1 1 |
| Integrations - importing large files into repositories using an external system | Ignace Deroost | Apr 09, 2015 | |
| Stats/Metrics - Convey collection hierarchy to Google Analytics | Terrence W Brady | Apr 06, 2015 | |
| Integrations - Enrich metadata fields with external geographic information | Bram Luyten (Atmire) | Apr 06, 2015 | |
| Integrations - Linking to other data sources search for available data | Ignace Deroost | Apr 06, 2015 | 1 |
| Integrations - integrating with third party document streaming services | Ignace Deroost | Nov 19, 2014 | 1 |
| Integrations - Importing data from discipline-specific systems into DSpace | Ignace Deroost | Nov 19, 2014 | 1 1 |
| Integrations- Integrations that avoid registering information multiple times within the organisation | Ignace Deroost | Nov 19, 2014 | 1 |
| Integrations - Integrations that increase the exposure of content stored into DSpace in external systems | Ignace Deroost | Nov 19, 2014 | |
| Integrations - Integrations that significantly lower the effort to fill DSpace with content, both from in house systems and third party content | Ignace Deroost | Nov 19, 2014 | 2 |
| Integrations - Use of multiple sorts of Direct Object Identifiers | Ignace Deroost | Nov 19, 2014 | |
| Structure - Automated Update of Existing Items | Mark Diggory | Apr 26, 2014 | 1 |
| Structure - Automated Deposit of New Items | Mark Diggory | Apr 26, 2014 | 2 |
| Integrations - Persistent Identifiers other than Handles (DOI) | Mark Diggory | Apr 26, 2014 | 1 |
| Integrations - REST API | Richard Rodgers | Apr 25, 2014 | 3 2 |
| Integrations - Support Standard Repository Machine Interfaces (OAI-PMH, SWORD, ResourceSync) | Richard Rodgers | Apr 25, 2014 | 1 |
| Integrations - Personal Identifiers (ORCID) | Richard Rodgers | Apr 25, 2014 | 1 |

| | | | |
|---|-----------------|--------------|--------|
| Integrations - Handle System Identifiers | Richard Rodgers | Apr 25, 2014 | 1 1 |
| Integrations - Search Engine Optimization | Richard Rodgers | Apr 25, 2014 | 1 |

Structure: use cases relating to the architecture/structure of content within DSpace

| Title | Creator | Modified | |
|--|------------------|--------------|-----|
| Admin UI - Simplify Collection Creation Based on Template | Monika Mevenkamp | Jun 22, 2015 | |
| Structure - Check Bitstream names against allowed file name pattern | Monika Mevenkamp | Jun 12, 2015 | 1 |
| Structure - Format checking of data entry in input forms | Monika Mevenkamp | Jun 12, 2015 | 2 |
| End User - Image file display (pan, zoom, size options) | Maureen Walsh | May 12, 2015 | 3 1 |
| Structure - Generated provenance for all added bitstreams | Maureen Walsh | May 11, 2015 | 1 |
| Structure - Apply licenses to bitstreams | Maureen Walsh | May 11, 2015 | 1 |
| Structure - Generate technical metadata per bitstream | Maureen Walsh | May 11, 2015 | 1 |
| Structure - Simple AssetStore for Human Traversal | Tim Donohue | Apr 28, 2015 | 1 |
| Structure - purpose of bundle layer | Ignace Deroost | Apr 09, 2015 | 1 |
| Structure - Create the ability to place "dynamic collections" (pre-faceted view of a collection) within the community hierarchy. | Terrence W Brady | Apr 06, 2015 | 2 |
| Structure - Drag and drop opportunities for changing collections structure | Ignace Deroost | Dec 10, 2014 | 1 1 |
| Structure - Manual Creation of "New Editions" of an Item | Mark Diggory | Apr 28, 2014 | 1 1 |
| Structure - Automated Retention of All changes to Items | Mark Diggory | Apr 28, 2014 | 3 4 |
| Structure - Create / manage files and metadata (as an Item) | Mark Diggory | Apr 26, 2014 | 2 1 |
| Structure - Relationships between objects | Mark Diggory | Apr 26, 2014 | 1 2 |
| Structure - Support for hierarchical metadata formats (e.g. METS / MODS) | Mark Diggory | Apr 26, 2014 | 2 1 |
| Structure - Community and Collection hierarchy (or generic containers) | Mark Diggory | Apr 26, 2014 | 2 1 |
| Structure - Metadata for all levels of object hierarchy | Mark Diggory | Apr 26, 2014 | 1 |
| Structure - Manage Lists, Controlled Vocabularies and Authority Control | Mark Diggory | Apr 26, 2014 | 3 2 |
| Structure - Describe Individual Bitstream within an Item | Mark Diggory | Apr 26, 2014 | 4 3 |

| | | | |
|--|--------------|--------------|-----|
| Structure - Associate Separate Properties with Each DSpace Community | Mark Diggory | Apr 26, 2014 | 1 |
| Structure - Support for derivative objects | Mark Diggory | Apr 26, 2014 | 2 2 |
| Structure - Management of Deposits / Submissions | Mark Diggory | Apr 26, 2014 | 1 1 |
| Structure - Automated Update of Existing Items | Mark Diggory | Apr 26, 2014 | 1 |
| Structure - Manual Edit of Existing Items | Mark Diggory | Apr 26, 2014 | 1 1 |
| Structure - Automated Deposit of New Items | Mark Diggory | Apr 26, 2014 | 2 |
| Structure - Manual Submission of New Items | Mark Diggory | Apr 26, 2014 | 2 |

Recently Updated Use Cases

This is a listing of all recently updated use case child pages, all of which should be categorized above.

- Admin UI - Change permissions of all the bitstreams in a bundle
- Give Collections/Communities short names/acronyms
- Admin UI - Merge tool
- Detect potential duplicates
- End User - Viewing all metadata of an archived item
- Admin-UI - "Login as" functionality
- End User - Use breadcrumbs to navigate to parent community or collection
- End User - Viewing the details of an archived item
- End User - Item editing by original submitters
- Admin UI - Configure hidden communities and collections
- End User: URLs are clickable links in metadata fields
- End User - Make indexed metadata values clickable in simple item pages
- Admin UI - Rebuild the discovery index
- Admin UI - Configure and manage browse indexes
- End User - Enhanced access to related items
- Admin UI - Access to historic items for a new member in an e-person group
- Admin UI - New reviewers can see historic tasks in the pool
- Admin UI - Permissions of a new user in an eperson group
- Admin UI - Access Rights on all levels of objects within the system
- Integration - Integration with external authentication / authorisation system
- End User - Upload document from URL/URI
- Integrations - Authentication through Multiple Mechanisms
- Reuse authentication parameters from external authentication
- End User - Search for items
- End User - Using faceted search
- End User - Browse
- CASE: Automatic similarity check upon depositing research output
- Integrations - Support external authorities (ORCID) in Authority Cache
- Integrations - Support for external identifiers (ORCID) in the CSV Batch edit
- Request access to restricted items or bitstreams
- End User - Deposit entire item by email
- End User - Email Deposit of bitstream for archived metadata-only item
- End User - Email Deposit of bitstream for automatically captured metadata
- Use Case: Integrate standard file format identifiers & validators
- Use Case: Improved management & visibility of the File Format Registry
- Granular review workflow for new versions
- Audit trail for changes to live item
- Reviewers can leave notes to each other on pool tasks / tag states
- Admin UI - Reports/statistics about workflow
- Admin UI - Allow invocation of curation tasks during workflow
- Admin UI - Reviewers of a submission can change metadata that is not included in the submission form
- Admin UI - Reviewers can make changes to a submission's bitstreams
- Admin UI - Reviewers can move a submission to a different collection
- Admin UI - Reviewers retain a track record of what they've processed/approved
- Admin UI - Workflow tasks can be filtered and sorted
- Admin UI - Detect and re-assign stalled workflow tasks
- Admin UI - Reviewers can delete submissions in workflow
- Admin UI - DSpace should accommodate basic index normalization
- Admin UI - Simplify Collection Creation Based on Template
- Structure - Check Bitstream names against allowed file name pattern
- Structure - Format checking of data entry in input forms

- Admin UI - Workflow overview
- Integrations - Streaming Image Server
- End User - Image file display (pan, zoom, size options)
- Structure - Generated provenance for all added bitstreams
- Structure - Apply licenses to bitstreams
- Structure - Generate technical metadata per bitstream
- Stats/Metrics - Allow repository admin to make usage statistics anonymous
- Admin UI - System Alerts via Admin UI
- Structure - Simple AssetStore for Human Traversal
- Integrations - Linking to repository content through a learning management system
- Admin UI - Generate Handle before committing Item
- Stats/Metrics - More robust and configurable statistics reports
- Admin UI - Configurations in the admin UI
- End User - Intelligent rendering of URL's in item Metadata
- Integrations - importing large files into repositories using an external system
- End User - Curated thumbnails
- Structure - purpose of bundle layer
- Admin UI - Aids and tooltips in the UI
- Stats/Metrics - Categorize and count item page referrers (Google search, Google Scholar, repository full text search, repository facet search, repository browse, repository related item, external link)
- Stats/Metrics - Convey collection hierarchy to Google Analytics
- Stats/Metrics - Configure the number of top searches to display
- Stats/Metrics - Export Usage Statistics
- Stats/Metrics - Filter Usage by Referrer Domain
- Stats/Metrics - View number of times an item has been included in search results
- Integrations - Enrich metadata fields with external geographic information
- Integrations - Linking to other data sources search for available data
- Structure - Create the ability to place "dynamic collections" (pre-faceted view of a collection) within the community hierarchy.
- Admin UI - Enhance the DSpace Curation System to Support a Flexible Query Tool
- Integrations - integrating with third party document streaming services
- Integrations - Importing data from discipline-specific systems into DSpace
- Integrations - Integrations that avoid registering information multiple times within the organisation
- Integrations - Integrations that increase the exposure of content stored into DSpace in external systems
- Integrations - Integrations that significantly lower the effort to fill DSpace with content, both from in house systems and third party content
- Integrations - Use of multiple sorts of Direct Object Identifiers
- Admin UI - Ability to specify the emphasis of a collection through GUI
- Admin UI - Apply an input-form to the collection through the GUI
- Admin UI - Apply an existing theme to a collection or community through the GUI
- Admin UI - Customise which metadata fields to facet upon, search upon
- Admin UI - Alter messages easier
- Admin UI - Manage home page
- Admin UI - Configure and Manage changes during an update
- Admin UI - Changing / Editing OAI crosswalks
- Admin UI - Updating a Workflow group
- End User - Visitor can play media hosted on an external streaming media server
- Admin UI - Allow collection administrators to perform bulk metadata import
- Admin UI - Collection Admin can construct a Quality Control report
- Admin UI - Collection Admin can select fields to include in metadata export
- Admin UI - Quality Control Reports
- Admin UI - Clear the OAI Cache
- Admin UI - Rebuild the OAI index
- Admin UI - Trigger the re-index of a collection
- Admin UI - Undo a bulk import from the User Interface
- Admin UI - Workflow Overview Rejection
- End User - Clear distinction between different types of contributor involvement
- End User - Visual collection browsing
- End User - Discovery and retrieval of content on mobile devices
- End User - Crowdsourcing metadata for archived items
- End User - In-browser page turner for accessing text based materials
- Stats/Metrics - Advanced Statistics
- End User - Flexible licensing
- End User - Batch Deposit
- End User - Easy and Intuitive Deposit Interface
- Stats/Metrics - Basic Statistics
- Admin UI - Basic Preservation - Fixity Checking
- Admin UI - Approval workflows
- Admin UI - Advanced Preservation - Format Migration
- Admin UI - Format reporting
- Admin UI - Advanced Preservation - Format characterization
- Admin UI - Basic Preservation - Format identification
- Admin UI - Basic Preservation - Format validation
