2019-09-05 DSpace 7 Working Group Meeting

- Date
- Agenda
- Attendees
- Current Work
  - Tickets / PRs In Progress
  - PRs Needing Review
  - PRs Merged this week!
  - Blocked
  - Delayed / Needs Discussion
- Notes

Date

05 Sep 2019 from 14:00-15:00 UTC

Location: https://lyrasis.zoom.us/my/dspace (Meeting ID: 502 527 3040).

- More connection options available at DSpace Meeting Room

Agenda

- (15 mins) Developer Stand Up - Developers give brief updates on their effort (or their team's effort).
  - Update/see "Current Work" section below based on your status. Please feel free to update prior to meeting.
  - Please highlight any new work (needing reviews/testing), any blockers (for you), and any discussion topics you may have.
- (30 mins) General Discussion Topics
  1. DSpace 7 Estimation Process
     a. Any feedback/comments? Finalize the spreadsheets (as necessary).
     b. Assign estimators (volunteers welcome & encouraged). Determine timelines for initial estimates.
  2. Changing the collection in the submission doesn't change the item template
     a. How should this work, if you change the collection after you've already filled out some metadata?
  3. "Scripts & Processes" endpoint proposal / proof-of-concept
     a. Original REST Contract PR: https://github.com/DSpace/Rest7Contract/pull/17
     b. Atmire implementation proposal (to refactor ~6 scripts initially for DSpace v7): https://gist.github.com/benbosman/b238be670dd8f8819720b04bcebd59
- (15 mins) Planning for next week
  - Assigning PRs for Review
  - Next tasks from Development Planning Spreadsheet

Attendees

- Art Lowel (Atmire)
- Andrea Bollini (4Science)
- Tim Donohue (Out of office Sept 9-12)
- Heather Greer Klein (Out of office Sept 9-12)
- Lieven Droogmans
- Mark H. Wood
- Giuseppe Digilio (4Science)
- Ben Bosman
- Chris Wilper
- Terrence W Brady
- Paulo Graça
- Dimitris Pierrakos
- Julius Gruber
- Laura Henze

Current Work
Tickets / PRs In Progress

1. (Angular) Adding Accessibility via Travis CI [https://github.com/DSpace/dspace-angular/pull/356](https://github.com/DSpace/dspace-angular/pull/356) (Lower priority)
2. (REST Contract) Edit Homepage news: [https://github.com/DSpace/Rest7Contract/pull/45](https://github.com/DSpace/Rest7Contract/pull/45) (Andrea Bollini, 4Science)
3. (REST Contract) Authority control Rest contract [https://github.com/DSpace/Rest7Contract/pull/73](https://github.com/DSpace/Rest7Contract/pull/73) (Andrea Bollini, 4Science, Tim Donohue)
4. (REST) Re-enable end-to-end (e2e) testing using Docker: [https://github.com/DSpace/Rest7Contract/pull/41](https://github.com/DSpace/Rest7Contract/pull/41) (Waiting on updates from Ben Bosman)
5. (REST) Group and eperson management: [https://github.com/DSpace/Rest7Contract/pull/2406](https://github.com/DSpace/Rest7Contract/pull/2406) (Dimitris Pierrakos, Ben Bosman - Feedback provided)

PRs Needing Review

1. (REST Contract) upload bitstream to archived item - update [https://github.com/DSpace/Rest7Contract/pull/2491](https://github.com/DSpace/Rest7Contract/pull/2491) (Tim Donohue, Andrea Bollini (4Science))
2. (NEW) (REST Contract) Authority control Rest contract [https://github.com/DSpace/Rest7Contract/pull/443](https://github.com/DSpace/Rest7Contract/pull/443) (Andrea Bollini (4Science), Tim Donohue)
3. (NEW) (REST) Issue when community has multiple dc.title values [https://github.com/DSpace/dspace-angular/pull/2486](https://github.com/DSpace/dspace-angular/pull/2486) (Tim Donohue, Andrea Bollini (4Science) - feedback provided)
4. (REST) Oai harvesting setup [https://github.com/DSpace/dspace-angular/pull/2491](https://github.com/DSpace/dspace-angular/pull/2491) (Tim Donohue - Minor improvements requested, Andrea Bollini (4Science))
5. (REST) Spring security for createAndReturn with parent id [https://github.com/DSpace/dspace-angular/pull/2489](https://github.com/DSpace/dspace-angular/pull/2489) (Tim Donohue, NEEDS SECOND REVIEWER)
7. (Angular) (Entities) Deleting relationships: [https://github.com/DSpace/dspace-angular/pull/402](https://github.com/DSpace/dspace-angular/pull/402) (Paulo Graça, Tim Donohue)
8. (Angular) Move Item Component: [https://github.com/DSpace/dspace-angular/pull/335](https://github.com/DSpace/dspace-angular/pull/335) (Giuseppe Digilio (4Science) - REREVIEW, Tim Donohue - REVIEWER)
9. (Angular) Item-Collection Mapper: [https://github.com/DSpace/dspace-angular/pull/348](https://github.com/DSpace/dspace-angular/pull/348) (Tim Donohue - REREVIEW, Giuseppe Digilio (4Science) - REVIEWER)
10. (Angular) Shibboleth integration support: [https://github.com/DSpace/dspace-angular/pull/429](https://github.com/DSpace/dspace-angular/pull/429) (Julius running into an error with 'yarn start' only) (Giuseppe Digilio (4Science) reviewed again and provided feedback, Fernando FCT/FCCN, Paulo Graça)
11. (Angular) Submission Miscellaneous fixes: [https://github.com/DSpace/dspace-angular/pull/432](https://github.com/DSpace/dspace-angular/pull/432) (Art Lowel (Atmire), Julius Gruber, Tim Donohue - Noted performance issues)
12. (Angular) UI Language Cookie [https://github.com/DSpace/dspace-angular/pull/443](https://github.com/DSpace/dspace-angular/pull/443) (Tim Donohue, Paulo Graça)
13. (Angular) Convert i18n files to JSON5 format [https://github.com/DSpace/dspace-angular/pull/439](https://github.com/DSpace/dspace-angular/pull/439) (Tim Donohue, Paulo Graça)
14. (Angular) Search Performance optimizations #2 [https://github.com/DSpace/dspace-angular/pull/437](https://github.com/DSpace/dspace-angular/pull/437) (Tim Donohue - noted 404 isn’t working through, Giuseppe Digilio (4Science))
15. (Angular) Redirecting user to same page after login [https://github.com/DSpace/dspace-angular/pull/467](https://github.com/DSpace/dspace-angular/pull/467) (Art Lowel (Atmire), Giuseppe Digilio (4Science) - provided feedback)
16. (NEW) (Angular) forceBypassCache should be removed from the RequestService: [https://github.com/DSpace/dspace-angular/pull/468](https://github.com/DSpace/dspace-angular/pull/468) (Art Lowel (Atmire), Giuseppe Digilio (4Science))
17. (NEW) (Angular) Re-enable end-to-end (e2e) testing using Docker: [https://github.com/DSpace/dspace-angular/pull/466](https://github.com/DSpace/dspace-angular/pull/466) (Tim Donohue, Art Lowel (Atmire))
18. (NEW) (Angular) Collection pages WIP: [https://github.com/DSpace/dspace-angular/pull/472](https://github.com/DSpace/dspace-angular/pull/472) (Art Lowel (Atmire), Tim Donohue)
19. (Backend) Solr 7 fixes for upgrading to DSpace 7: [https://github.com/DSpace/DSpace/pull/2393](https://github.com/DSpace/DSpace/pull/2393) (Chris Wilper, Tim Donohue)
20. (Backend) Upgrade to Solr 7: support sharded statistics [https://github.com/DSpace/DSpace/pull/2495](https://github.com/DSpace/DSpace/pull/2495) (Chris Wilper, Tim Donohue, Ask on #dev channel too)

PRs Merged this week!

1. (REST Contract) DS-4317 bundles in REST [https://github.com/DSpace/Rest7Contract/pull/72](https://github.com/DSpace/Rest7Contract/pull/72)
2. (Angular) Fix the labels on edit collection and community pages [https://github.com/DSpace/dspace-angular/pull/459](https://github.com/DSpace/dspace-angular/pull/459)
3. (Angular) bitstream format registries [https://github.com/DSpace/dspace-angular/pull/455](https://github.com/DSpace/dspace-angular/pull/455)

Blocked

1. (Blocked PRs go here)

Delayed / Needs Discussion
1. (REST) Scripts & Processes endpoint: https://github.com/DSpace/Rest7Contract/pull/17
   a. How do we move this forward? In our Jan 24 meeting, Tim noted a risk of "scope creep" with this feature suggestion. This idea has been tabled since then.
   b. In July 25 meeting, Atmire said they'd come back with notes on the proposed backend implementation.

2. Managing Authorization info in Angular UI: How to pass Authorization rights (i.e. logged in user's access rights) from REST API to Angular? See for example: https://github.com/DSpace/dspace-angular/issues/393
   a. Can this be achieved via passed HAL "_links" (e.g. the existence of an "edit" link in REST response means you must have Edit rights)?
   b. In July 25 meeting, we noted this probably cannot be resolved with just one simple solution. May need to look at different options for different scenarios
   i. Also likely to need to store/cache a user's Groups in UI layer, as some areas (e.g. Administrative) require knowledge of user group membership

3. REST API Projections: DS-3333 - Getting issue details...[STATUS]
   a. Early work begun at https://github.com/DSpace/DSpace/pull/1847. Discussed in more detail in our Aug 22 meeting. Overall, this approach seems like a good direction, need volunteers to move it forward.
      i. https://github.com/DSpace/Rest7Contract/issues/2 (discussion resumed by Andrea Bollini (4Science) could be relevant for the projection)
   b. Proposal here is to consider storing HTML-based markup (for Site, Community & Collection homepages) in Bitstream(s) associated with the object in question. May allow for more CMS-lite behavior in the future
   c. Timeline for this is uncertain. Possibly in 7 or 8. May depend on how/whether it can be scoped.

4. Initial Performance Testing from Chris.

5. (REST Contract) Edit Homepage News: https://github.com/DSpace/Rest7Contract/pull/45
   a. Delayed until after Preview release. General agreement (in meeting on March 21, 2019) that storing HTML in metadata fields is not really ideal behavior. Metadata (from a librarian standpoint) tends to be free of format-related markup (as that allows for easier sharing, understanding of metadata. Currently Community & Collection homepage information is HTML-based and is stored in metadata that is appropriate for a minor subset of information (like the title) but it is better to move large/rich text to bitstreams.
   b. Proposal here is to consider storing HTML-based markup (for Site, Community & Collection homepages) in Bitstream(s) associated with the object in question. May allow for more CMS-lite behavior in the future
   c. Timeline for this is uncertain. Possibly in 7 or 8. May depend on how/whether it can be scoped.

6. Concurrency in DSpace 7 (or 8). What do we want to do when multiple editors are editing the same object? Needs further analysis regarding implementation details
   a. We've decided (in meeting on March 7, 2019) to use ETags to implement concurrency. REST Contract notes on ETags: https://github.com/DSpace/Rest7Contract#etags--conditional-headers
   b. ETags only update of the two fields match. If someone edits first, your edit would fail and you would get a fail response (422?)
   c. ETags seems to have broader support in other REST APIs. Recommended also by both Art and Andrea.

7. Improve/Re-enable End To End (e2e) Testing. Could there be opportunities to use Travis CI + Docker Compose for testing of Angular?? https://github.com/DSpace/dspace-angular/issues/453
   a. Docs: https://docs.travis-ci.com/user/docker/#using-docker-compose
   c. An example travis.yml file: https://github.com/Ortus-Solutions/docker-buildfiles/blob/master/.travis.example.yml

Notes
