Linked Data for Libraries (LD4L) Gateway

LD4P3
2020-2022

“aims to ‘close the loop’ to create a working model of a complete cycle for library metadata creation, sharing, and reuse”

more information...

LD4L Labs
2016-2018

“helping libraries use linked data to improve the exchange and understanding of information about scholarly resources”

more information...
Gateway to linked data related projects for library communities

LD4P2
2018-2020
“Implementation phase of the cataloging community’s shift to linked data for the creation and manipulation of their metadata”

LD4L 2014
2014-2016
“Create a model that works both within individual institutions and through a coordinated, extensible network of Linked Open Data”

LD4P
2015-2018
“Transition of technical services production workflows to ones based in Linked Open Data”
