Work Areas

Click name of Work Area for more, including description of the Work Area from the LD4P2 grant proposal.

Sinopia: Cloud-based cooperative cataloging environment

- Sinopia tool (sinopia.io)
- Sinopia help pages
- Sinopia User Group
- Sinopia Development Demos
- PCC Sinopia Training Plan
- Profiles Working Group
- Rare Materials Affinity Group
- Non-Latin Script Materials Affinity Group
- Serials Affinity Group
- Questions about LC's BF editor (not Sinopia)

Lookups and External Data

- Wikidata work (Github)
- Wikimedian areas of focus
- Wikimedian tasks
- Wikimedian quarterly reports
- LD4-Wikidata Affinity Group
- LD4P Wikidata WikiProject
- PCC ISNI initiative

Communication and Organization

How to subscribe to the LD4P wiki calendar

Team Calendars
With support from the Andrew W. Mellon Foundation, the Linked Data for Production Phase 2 (LD4P2) partners (Cornell University, Harvard University, Stanford University, and the University of Iowa's School of Library and Information Science), in collaboration with the Library of Congress and the Program for Cooperative Cataloging (PCC), are building a pathway for the cataloging community to begin shifting to linked data to describe library resources. LD4P2 builds on the foundational work of Linked Data for Production (LD4P) Phase 1 and Linked Data for Libraries Labs (LD4L Labs). More on LD4P2 Project Background and Goals.
