Welcome to the DScape Wiki! Please sign up and participate.

Although a few pages are 'locked' to prevent spamming, anyone who sign ups and creates an account can freely edit most of the DScape Wiki. If you've forgotten your password, please visit the reset your password page.

This space is thought to make it easy for DScape users in Nigeria to share information about their activities, projects, events and ideas and to make them known to the global DScape Community. In Nigeria there are many DScape installations and a vibrant community of users within the AULNU, NLA and NiCLOR communities of librarians and researchers. This page and its sub-pages are the platform to coordinate the collaboration among Nigerian institutions in order to facilitate discussions on Country specific themes and topics of interest.

1. Who is using DScape in Nigeria?

In the Duraspase Registry there are information about the DScape installations currently running in Nigeria. Please take a moment to look for your Institution and check whether the information is correct. If your institution is missing, you can add it here: https://duraspace.org/registry/register-your-site/

2. How to communicate?

There are numerous ways to get in touch, both at a global level with the general DScape Community and at the specific country level.

2.a. Mailing Lists

General and global DScape lists

Globally, there are several public mailing lists that you can join, depending on your particular interest:

- **dspace-community@googlegroups.com**: General conversations about the DScape platform and how to set up and run a DScape installation. Any DScape user can send questions, share news and raise the dialogue about DScape with people who manage other repositories.
  - Join dspace-community (click on "Join group") or search the archive of past conversations
  - You can also join by sending an email to dspace-community+subscribe@googlegroups.com

- **dspace-tech@googlegroups.com**: Technical support for the DScape platform. If you have a technical query or if you are having problems in the operation of DScape, this is the correct list (for more information check the Troubleshoot an error page). If you have technical knowledge and would like to give a hand to those who need some help, join, please!
  - Join dspace-tech (Click on "Join group") or do a search on the file of past conversations
  - You can also join by simply sending an email to the address dspace-tech+subscribe@googlegroups.com

- **dspace-devel@googlegroups.com**: Ready for DScape developers. In this list the people who work in the DScape code interact, so here you will find conversations about the development of DScape and its next versions.
  - Join dspace-devel (click on "Join group") or do a search in the file of past conversations
  - You can also join by simply sending an email to the address dspace-devel+subscribe@googlegroups.com

- **dspace-tickets@googlegroups.com**: List of notifications of DScape Issue Tracker (JIRA) tickets. This list is useful if you want to be aware of the reports of errors, possible upcoming functionalities, and in general of upcoming changes in the code.
  - Join dspace-tickets (click on "Join group") or search the archive of past conversations
  - You can also join by simply sending an email to dspace-tickets+subscribe@googlegroups.com

- **dspace-changelog@googlegroups.com**: List of notifications of all changes to the DScape base code on GitHub. This list is only for "hardcore" developers. It reports the latest "commits" to the code so that developers keep abreast of the latest changes to the DScape code.
  - Join dspace-changelog (click on "Join group") or do a search in the file of past conversations
  - You can also join by simply sending an email to the address dspace-changelog+subscribe@googlegroups.com

National Mailing List

At the Nigerian level is available a mailing list to discuss any idea and issue related to Institutional Repositories such as DScape in Nigeria and Open Access related topics:

- **niclor@lists.eko-konnect.org.ng**: Please use this list to send questions, share news and raise the dialogue about DScape with people who manage other repositories. You can subscribe to the list here.
2.b. Slack

DSpace is using Slack as communication platform. Within slack there is a new channel for the Nigerian DSpace User Group: #dspace-ng. Please use this form to request to join the DSpace Slack channel. After joining the main DSpace Slack channel, just look for #dspace-ng and add it to your list.

2.c. Events

This section will show the events that will be organized specifically for the Nigerian community of DSpace, both virtual and in person.

Webinars

September 4, 2019, 3:00 pm (WAT)
DSpace and Google Scholar Webinar for Nigeria
Monica Westin, Google Scholar
