

2018-12-04 - VIVO Development IG

Date

04 Dec 2018

Call-in Information

Time: 11:00 am, Eastern Time (New York, GMT-05:00)

To join the online meeting:

- Go to: <https://duraspace.zoom.us/j/823948749>
- Or iPhone one-tap :
 - US: +14086380968,,823948749# or +16468769923,,823948749#
- Or Telephone:
 - Dial(for higher quality, dial a number based on your current location):
 - US: +1 408 638 0968 or +1 646 876 9923 or +1 669 900 6833
 - Meeting ID: 823 948 749
- International numbers available: https://duraspace.zoom.us/join?m=Qy8de-kt6W4fMMDQCAV_3qfH1W-lxAo5

Slack

- <https://vivo-project.slack.com>
 - Self-register at: <https://goo.gl/forms/JxQFkut4TYj4Ehww1>

Development Process

- See <https://github.com/vivo-project/VIVO/wiki/Development-Processes>

Attendees

[blocked URL](#) Indicating note-taker

1. Kitio Fofack
2. Ralph O'Flinn
3. Andrew Woods
4. Mike Conlon
5. Benjamin Gross ★
6. Steven McCauley
7. Svantje Lilienthal
8. Richard Outten
9. Huda Khan
10. Laura Wrubel
11. Greg Burton
12. Robert Nelson
13. @jim wood

Agenda

1. Review of agenda
 - a. Any pressing issues?
2. [Sprint update](#)
 - a. i18n
 - b. Externalized search
 - c. Product evolution
 - d. Misc
3. Housekeeping updates from last week
 - a. Moving the [Advanced Data Management feature forward](#)
 - i. Unable to locate Jira server for this macro. It may be due to Application Link configuration.
 - ii.
 - b. Themes
 1. <https://github.com/vivo-project/Vitro/pull/94>
 2. <https://github.com/vivo-project/VIVO/pull/95>

- i. Unable to locate Jira server for this macro. It may be due to Application Link configuration. - Thanks,Kitio
 - c. Misc
 - i. Unable to locate Jira server for this macro. It may be due to Application Link configuration. - Don Elsborg(invest
 - ii. Unable to locate Jira server for this macro. It may be due to Application Link configuration. - Can anyone
4. In-Review

type	key	summary	assignee	reporter	priority	status	resolution	created	updated	due
Unable to locate Jira server for this macro. It may be due to Application Link configuration.										

5. 1.10
- a. bugs (1.10.1?)

type	key	summary	assignee	reporter	priority	status	resolution	created	updated	due
Unable to locate Jira server for this macro. It may be due to Application Link configuration.										

Notes

Draft notes in Google-Doc

- Andrew: Please add your github name to Slack

Does everybody have tickets to work on? If not, either pick an unassigned task or create a task for yourself: <https://jira.duraspace.org/secure/RapidBoard.jspa?rapidView=36>

Mike: <https://jira.duraspace.org/browse/VIVO-1639>, unintended consequence. Search searches the classnames. So a search for "faculty" previously produced results. Now does not.

- Ralph - Is this okay, I've seen this search before
- Mike - appears to have affected both the display and the search itself
- Not a code breaking change, but changing functionality
- Benjamin: Current status is two approvals and will be merged unless status changes
- Mike: Yes, this is okay but read comments to request additional functionality in the future
- We only want to get rid of the display (the snippet) but not the search functionality
- Andrew: What's the next step, is this a new ticket? Is there a mechanism for filtering data out of the display?
- Benjamin: There are ways to add data to the index without it being added to the visible text, but class names are added in Java and not configurable
- Mike: The actual class name should not be necessary to search for... there should be a better way
- Andrew to summarize, Mike likes it this way but doesn't prefer it this way
- Kitio: it should be searchable via the label, not via the class uri to support multiple languages

<https://jira.duraspace.org/browse/VIVO-1641>

- Anybody available to review this pull request? <https://github.com/vivo-project/VIVO/pull/96>

<https://jira.duraspace.org/browse/VIVO-1647> -

- Can be another ticket to replace additional generic diamond operators
- Mike to assign Laura as reviewer

<https://jira.duraspace.org/browse/VIVO-1593> - Mike reviewing documentation

Anybody have questions about tickets in progress

- Laura, 1340, how do I drag into in review column? Check it as 'Ready to Test'
- Andrew: Where should this process be documented? Laura was looking in 'Development Process'

Mike: <https://jira.duraspace.org/browse/VIVO-1528>, Stefan has submitted a PR

- What is the proper way to make changes to somebody else's pull request?
- Andrew: You can fork a fork and make changes and submit a pull request on the fork

Svantje could use a ticket! Andrew: There are i18n tickets available. There are also opportunities with the search index tickets.

- Kitio: Issue with display of 'Faculty Member', showing class instead of label: <https://jira.duraspace.org/browse/VIVO-1624>
- Mike: Please add additional description about why it's not working correctly if you know

Please look ahead at additional tickets you may be interested in looking at. Our next official meeting is the wrap up on Friday. Ask for add'l tickets on Slack.

For help in working internationalization tickets, contact Kitio for more information

Mike: How to resolve conflict?

Andrew: Is anybody working on search? Ralph: yes, I am

Richard: Product evolution work update, discussion on how schema should look

- Idea of 'read only' interface
- Andrew: Could you benefit from any additional input? Richard: Not at the moment, but yes going forward. Join product evolution calls.
- Andrew to assign a couple tickets to Texas A&M crew

Laura: One more process question: How about reviews relating to documentation on the wiki?

- Andrew: Just go ahead and make the changes and post a link to the diff

Final request: 1543 needs one more review... BENJAMIN

Actions

- [Benjamin Gross](#) to review VIVO-1543
- [Mike Conlon](#) to assign Laura as reviewer for VIVO-1647
- [Andrew Woods](#) to coordinate with Texas A&M to assign tickets for sprint

Previous Actions

- [Andrew Woods](#) to respond to mailing list: "fresh 1.10 release install crashing with..."
- [Mike Conlon](#) to create ticket: ~~TPE should be toggle-able, on by default~~
- [Mike Conlon](#) to create tick
- [Mike Conlon](#) to address: Unable to locate Jira server for this macro. It may be due to Application Link configuration.
- [Don Elsborg](#) to update va
-
-
-
-
- [Brian Lowe](#) - check with ontology group on handles
- [Alex Viggio](#) will bring news of Elasticsearch instead of Solr up with Product Evolution.
- [Benjamin Gross](#) to create new Jira issue for additional errors thrown startup.
