

2019-06-07 Cornell LD4P2 Meeting notes

Date: 07 Jun 2019

Attendees: Lynette, Huda, Steven, Tim, Simeon

Regrets: Jason

Agenda & Notes

Review actions from 2019-05-31 Cornell LD4P2 Meeting notes

- [Simeon Warner](#) re: Ruby Dev for Enhanced Discovery work
- [Huda Khan](#) to work on a plan for Enhanced Discovery work through this year
 - [Working draft](#) (thanks [Steven Folsom](#) and [Tim Worrall](#))
 - Continue work on this plan and refine scope/question for the knowledge panel area of work ([KPAOW](#)), review again next week
 - ==> Move forward with the KPAOW plan through June and July, cut scope if necessary to follow this schedule. Will then consider at end July whether to proceed with other two investigations before end of year
- Issues:
 - [Overall Project Board](#)

Status updates and planning

- Note from schema.org list:
 - <https://bibliograph.github.io/BibloGraph-Frozen/bibliograph.net/> marked deprecated
- LD4P2 year 1 update for CUL as suggested by Jason
 - Will schedule as MWG in July (various out first week, Steven out Fri second week, Lynette week 22 and maybe preceding Fri 19)
 - Good to include interface stuff as all of our work in metadata focused
 - Simeon - project intro, positioning, Stanford and Sinopia (10min)
 - Lynette - QA / DAVE (10min)
 - Tim - discogs (5min)
 - Steven - Profiles (links QA and Discogs work) (10min)
 - Huda - Discovery and user perspective on lookup (10min)
 - Jason - LD4 community, cohort and future (10mins)
 - Discussion - 30mins
- Enhanced Discovery (see also <https://wiki.duraspace.org/x/sJl7Bg> and <https://github.com/LD4P/discovery/projects/1>)
 - Huda looking at Google Analytics to understand Lincoln search, not yielding much. Do see facet use. Can't follow a user's path in this data with respect to a specific search
 - Tim - other work this week. Discussion of related search in KPAOW
- Authority Lookups for Sinopia (Lookup infrastructure: https://github.com/LD4P/qa_server/projects/2, Authority requests: https://github.com/LD4P/qa_server/projects/1)
 - Dave has JSPs with exact match implemented and they check out, is moving them into production JSPs soon
 - Lots of work on https://github.com/LD4P/qa_server/projects/2 to get around bugs in LC data – ids in the data sometimes have a space between n and number, but the URIs don't, so this needs special handling in order to generate the URI from the id – LC have acknowledged the error but we don't know when it might get fixed (exchange in authorities slack), Lynette will follow up on the official id.loc.gov listserv
 - Next focus if getting context data per Steven's spreadsheet
 - Steven is working on ldpaths in the spreadsheet and has completed most of the first 9 tabs; notes and many are complex (MeSH and LC), some of the others will be easier
 - Positive ISNI meeting recently where data model was shared, follow up meeting soon
- Prep for Cataloging Sinatra and other 45's (Discogs data, https://github.com/LD4P/qa_server/issues?q=is%3Aissue+is%3Aopen+label%3ADiscogs)
 - ON HOLD pending more work in Sinopia to import data.
- Travel and meetings (see [LD4P2 Cornell Meeting Attendances](#))
 - LD4P June 2019 Meeting: Agenda formation: <https://wiki.duraspace.org/x/p4B7Bg>
 - Lynette, Steven, Jason, Huda
 - Partner meeting is day after cohort
 - Cohort discussion topics:
 - How do we handle SHARE-VDE data for cohort institutions in QA? Should these appear as a separate "authority" for each institution or as one commingled set? The latter is perhaps better for taking advantage of reconciliation and promoting improved ways of working with linked data
 - Other meetings
 - IPLC Discovery Day is July 22 – what is overlap?
 - Blacklight Summit will be at Duke, dates not yet announced 9, 10, 11 October at Duke
 - Huda and/or Tim?
 - LD4 BL meeting either September or December, buffer around BL summit
 - European Bibframe summit in September, call for proposals expected soon
 - Jason considering ARM/rare-cohort proposal
 - SWIB19 25-27 November (Thanksgiving week 🙄) - call deadline passed 26 May 2019, no submission
 - Possibility of QA + Dave in container
 - Consider discovery proposal
 - Samvera Connect
 - Lynette to present on QA
 - 5th International LODLAM SUMMIT at the The Getty Center in Los Angeles. February 3-4, 2020
 - [WikidataCon](#), Oct 25-26, 2019, Berlin, Germany

- Hilary will propose talk
 - rdfs:seeAlso [Conferences Related to Linked Data in Libraries](#)
- Next meetings:
 - 2019-06-14 - Lynette out, Steven out, Simeon out => Jason run to touch base on discovery work (unless vacations...)
 - 2019-06-21 - Jason out
 - 2019-06-28 - just after meetings, Simeon out => cancel
 - Think more about wikidata engagement
