  - a. DuraSpace Slack channel
3. Operations notes, issues, concerns
  - a. Chunk size
    - i. 

Unable to locate Jira server for this macro. It may be due to Application Link configuration.
    - ii.
4. Updates from or to
5. Development activity, PRs and reviews
6. Priority development work (see [backlog](#))
  - a. [Priority issues list](#)

## Resources

DuraCloud documentation

1. [User documentation \(wiki\)](#)
2. [Deployment documentation \(github\)](#)

## Minutes

- 6.1.0 release, as soon as Danny can work through the SyncTool bugs we will be looking at a release. Timeline depends on Danny's time /availability.
- Chunk size changes: Have run into an issue with a customer updating content with a 1 GB chunk size, then again with a 5 GB chunk size. Leftover chunks were not cleaned up but the tool. Manifest doesn't list all chunks. Danny is working on this. See JIRA tickets above.
- TDL: all contracts done for retiring DPN and moving to Chronopolis. No snapshots transferred, all will re-ingest. Expected to start in August. TDL can help with ticket 11237 from the backlog.
- Space-level streaming panel can move to the bottom of the interface
- What's the best way to communicate? A new channel on LYRASIS slack

## Actions

- [Bill Branan](#) will create a new LYR slack channel for contributors
