Stand-up Reports

Jared

[Fedora 6 Standup]
Finished yesterday:
- Revised Persisters to not use type parameters as part of allowing them to handle multiple operations and operation types - FCREPO-3098
- Meetings
Working on today:
- Update Delete persister PR to remove parameters - FCREPO-3100 / https://github.com/fcrepo4/fcrepo4/pull/1585
- Get a new ticket
Blockers:
- None

Andrew

[Fedora 6 Standup]
Finished yesterday:
- Taking the baton from Remi on "Add CLI library"
- https://jira.duraspace.org/browse/FCREPO-3107
Working on today:
- "Add CLI library"
- https://jira.duraspace.org/browse/FCREPO-3107
Blockers:
- None

Ben P

[Fedora 6 Standup]
Finished yesterday:
* Created and discussed proposal for approach to importing ocfl, smts, identifiers
* https://docs.google.com/document/d/1LVPeGwfhnqttcRs-KV_ZQSzRrtBEOiTHd1ZhJ5MtWxc/edit#
* which was a followup to https://docs.google.com/document/d/1QIxyluGNXv5MQrS_6UiCxmk4kDyw8RM69sVjTFEZNgw/edit#
* Starting thinking about ticket for persisting/getting resource headers
* https://jira.duraspace.org/browse/FCREPO-3129
* Reviewed PRs
Working on today:
* Review and respond to feedback on proposal from yesterday
* Try to move forward with FCREPO-3129
* struggling a bit with separation of concerns between layers
* continue reviewing stuff/giving feedback
Blockers:
* none

Peter E

[Fedora 6 Standup]
Finished yesterday:
* Continued work on the ContainmentIndex implementation
* https://jira.duraspace.org/browse/FCREPO-3106
* https://github.com/fcrepo4/fcrepo4/pull/1584
Working on today:
* More ContainmentIndex work
* defining and creating the database table
* add update methods to the index
Blockers:
* None

Mohamed

[Fedora 6 Standup]
Finished yesterday:
- Completed FCREPO-3128 (Complete TransactionImpl implementation)
- https://jira.duraspace.org/browse/FCREPO-3128
- https://github.com/fcrepo4/fcrepo4/pull/1586
Working on today:
- Need to pick a new task
- Updates to FCREPO-3128 based on PR comments
Blockers:
- None

Danny B

[Fedora 6 Standup]
Finished yesterday:
* PR feedback to open PRs
Working on today:
* Addressing (hopefully final feedback on https://jira.duraspace.org/browse/FCREPO-3119 and https://jira.duraspace.org/browse/FCREPO-3126
* code reviews
* integration testing?

Blockers:
* none

Danny B

[Fedora 6 Standup]
Finished Wednesday:
* https://jira.duraspace.org/browse/FCREPO-3119: Implement OCFLPersistentStorageSession.getTriples() and OCFLPersistentStorageSession.getManagedProperties()
* https://jira.duraspace.org/browse/FCREPO-3126 : Implement OCFLPersistentStorageSession.getTriples() with Version

Working on today:
* Addressing feedback for https://jira.duraspace.org/browse/FCREPO-3119
* code reviews
* integration testing?
Blockers:
* none

Ben P

[Fedora 6 Standup]
Finished yesterday:
* Put together document describing possible approaches for dealing with imported OCFL and SMTs
* https://docs.google.com/document/d/1QIxyluGNXv5MQrS_6UiCxmk4kDyw8RM69sVjTFEZNgw/edit#
* discussed document
* Reviewed PRs
Working on today:
* Write document summarizing a potential landing spot for SMTs/imports
* Maybe start on https://jira.duraspace.org/browse/FCREPO-3123 (ocfl object locking)
* continue reviewing stuff/giving feedback
Blockers:
* local meeting in the afternoon

Jared

[Fedora 6 Standup]
Finished yesterday:
* Work on UpdateResourcePersister - FCREPO-3098
* Refactored HttpIdentifierConverter - https://github.com/fcrepo4/fcrepo4/pull/1578
* Updated migration-utils to use Java 11 source/target in compiler - https://github.com/fcrepo4-exts/migration-utils/pull/87
Working on today:
* DeleteResourcePersister - FCREPO-3100
* Meetings
Blockers:
* none

Peter E

[Fedora 6 Standup]
Finished yesterday:
* out sick :-(
Working on today:
* containment index

(will get a WIP PR up today)
Blockers:
* still not feeling great :-/

Andrew

[Fedora 6 Standup]
Finished yesterday:
- Finished "Add digest and size info to generated OCFL"
- https://jira.duraspace.org/browse/FCREPO-3125
- Finished "Expose option for storage layout"
- https://jira.duraspace.org/browse/FCREPO-3110
Working on today:
- Either completing @Remi Malessa 's CLI ticket, or
- .."Introduce multi-threaded processing"
- https://jira.duraspace.org/browse/FCREPO-3127
Blockers:
- None

Mohamed

[Fedora 6 Standup]
Finished yesterday:
- Completed FCREPO-3074 (Update Transactions to use TransactionManager)
- https://jira.duraspace.org/browse/FCREPO-3074
Working on today:
- Working on FCREPO-3128 (Complete TransactionImpl implementation)
- https://jira.duraspace.org/browse/FCREPO-3128
Blockers:
- None

Bethany

[Fedora 6 Standup]
Finished yesterday:
- mostly out on Wednesday. Worked on responding to comments for PR 1575 (HttpRdfService)
Working on today:
- Finish updating PR 1575 (HttpRdfService)
- Rebase and update https://github.com/fcrepo4/fcrepo4/pull/1570 (ReplacePropertiesService)
- I should be ab
- All related to:

Blockers:
- None

Jared

[Fedora 6 Standup]
Yesterday:
* Finished initial work on CreateResourceService and associated Non/RdfSourceOperation(Builders)
* Some reviews
* Some local work
Today:
* Pick up another ticket
* Try to do some more reviewing
Blockers:
* None

Ben P

[Fedora 6 Standup]
Finished yesterday:
* Finished OCFLObjectSession impl - FCREPO-3095
* Spent some time thinking about SMTs and imported OCFL objects
*

*

Unable to locate Jira server for this macro. It may be due to Application Link configuration.

*
Working on today:
* Put together document to discuss imported OCFL, non-fedora RDF, SMTs
* continue reviewing stuff/giving feedback
Blockers:
* some local activities

Andrew

[Fedora 6 Standup]
Finished yesterday:
- Reviewed Remi CLI draft
- https://github.com/fcrepo4-exts/migration-utils/pull/80/
- Reviewed Pilot use cases
Working on today:
- Work on "Expose option for storage layout"
- https://jira.duraspace.org/browse/FCREPO-3110
Blockers:
- None

Remi

[Fedora 6 Standup]
Finished yesterday:
* Haven't done much progress on https://jira.duraspace.org/browse/FCREPO-3107 .
Working on today:
* Changing approach to the https://jira.duraspace.org/browse/FCREPO-3107 . Have just received draft plan of the changes from @awoods
* Meeting @awoods at 17:00 BST to talk about details regarding: https://jira.duraspace.org/browse/FCREPO-3107 .
Blockers:
* None, but looking forward to the meeting to talk about details regarding https://jira.duraspace.org/browse/FCREPO-3107

Danny B

[Fedora 6 Standup]
Finished yesterday:
* Finished implementation and tests for reading HEAD within a transaction: https://jira.duraspace.org/browse/FCREPO-3119: Implement OCFLPersistentStorageSession.getTriples() and OCFLPersistentStorageSession.getManagedProperties()
Working on today:
* Continue work on https://jira.duraspace.org/browse/FCREPO-3119: hopefully I can get a PR in early today
* code reviews
* integration testing?
Blockers:
* none

Mohamed

[Fedora 6 Standup]
Finished yesterday:
- Finished FCREPO-3103 (Binary Update)
- PR: https://github.com/fcrepo4/fcrepo4/pull/1579
- Started with FCREPO-3074 (Update Transactions to use TransactionManager)
Working on today:
- Wrapping up FCREPO-3074 (Update Transactions to use TransactionManager)
Blockers:
- None

Bethany

[Fedora 6 Standup]
Finished Friday:
* Looking at FCREPO-3060
* out yesterday
Working on today:
* Continue working on FCREPO-3060
* continue reviewing stuff/giving feedback
Blockers:
* Working remotely today - hoping network stays useful

Jared

[Fedora 6 Standup]
Finished Friday:
* Working on CreateResourceService, BuilderFactory and Operations against @bseeger's PR (FCREPO-3105).
* out yesterday
Working on today:
* Working on more tests for above.
* continue reviewing stuff/giving feedback
Blockers:
* n/a

Ben P

[Fedora 6 Standup]
Finished yesterday:
* Opened PR for OCFLObjectSession impl - FCREPO-3095
* Some discussion about file layouts for resource persistence and migration
* Reviewed PRs
Working on today:
* Address feedback on OCFLObjectSession PR - FCREPO-3095
* Create followup ticket for object locking during persistence
* Spend some time thinking about persistence filelayout and adjusting proposal
* continue reviewing stuff/giving feedback
Blockers:
* some local meetings and appointment, will be away 10:30-12:30, and probably 3-4.

Danny B

[Fedora 6 Standup]
Finished yesterday:
* Reviewed OCFLObjectSession impl - FCREPO-3095
* Create PR for https://jira.duraspace.org/browse/FCREPO-3094: Implement OCFLPersistentStorageSession.persist(CreateRDFSourceOperation)
Working on today:
* https://jira.duraspace.org/browse/FCREPO-3119: Implement OCFLPersistentStorageSession.getTriples() and OCFLPersistentStorageSession.getManagedProperties()

* code reviews
Blockers:
* 11:00-12:00 out

Remi

[Fedora 6 Standup]
Finished yesterday:

* Generally work on   Unable to locate Jira server for this macro. It may be due to Application Link configuration.

* Implemented picoc
* Tried to implement selecting of Fedora4Client implementation from command line - didn't work
Working on today:
* Trying to figure out way to change the Fedora4Client implementation from command line.
Blockers:
* Not sure about the best practice to make selection of Fedora4Client implementation dynamic

Andrew

[Fedora 6 Standup]
Finished yesterday:
- Finished "Enable resume/restart of migration"
- https://jira.duraspace.org/browse/FCREPO-3111
- Finished "Migrate from a list of PIDs"
- https://jira.duraspace.org/browse/FCREPO-3112
- Finished "Set RDF formate as n-triples"
- https://jira.duraspace.org/browse/FCREPO-3118
- Finished "Remove Go-Lang OCFL client"
- https://jira.duraspace.org/browse/FCREPO-3121
Working on today:
- Work on "Expose option for storage layout"
- https://jira.duraspace.org/browse/FCREPO-3110

Blockers:
- None

Peter E

[Fedora 6 Standup]
Finished yesterday:

nment index interface and class: Unable to locate Jira server for this macro. It may be due to

Application Link configuration.

- Continue with index work
Blockers:
- None

Mohamed

[Fedora 6 Standup]
Finished yesterday:
- Out sick yesterday
-
-                Unable to locate Jira server for this macro. It may be due to Application Link configuration.
-
W
- Catching up on stuff
- Create a PR for FCREPO-3103 and pick up new task
Blockers:
- None

Peter W

[Fedora 6 Standup]
Yesterday:
* Worked refactoring how the ocfl-java client handles logical and content paths
Today:
* Continuing to work on the ocfl-java paths
Blockers:
* None

Remi

[Fedora 6 Standup]
Yesterday:
* Working on CLI for migration-utils, learning how Spring works for the purpose of CLI implementation.
Today:
* Working on CLI for migration-utils
Blockers:
* None

Andrew

[Fedora 6 Standup]
Finished yesterday:
Working on today:
- Ran migration against UWM "F3 akubra content"
- Worked on "Enable resume/restart of migration"
- https://jira.duraspace.org/browse/FCREPO-3111
- Worked on "Migrate from a list of PIDs"
- https://jira.duraspace.org/browse/FCREPO-3112
Blockers:
- Finish "Enable resume/restart of migration"
- https://jira.duraspace.org/browse/FCREPO-3111
- Finish "Migrate from a list of PIDs"
- https://jira.duraspace.org/browse/FCREPO-3112
- None

Peter E

[Fedora 6 Standup]
Finished Friday:
- local work
Working on Today:
- containment index: https://jira.duraspace.org/browse/FCREPO-3106
- Atomic Batch Operation spec: https://github.com/fcrepo/fcrepo-specification-atomic-operations/pull/8
Blockers:
- feedback/approval on the batch operations spec PR

Danny B

[Fedora 6 Standup]
Friday
* PR feedback updates on for 3063 and 3081
T
* Unable to locate Jira server for this macro. It may be due to Application Link configuration. : Implement
O
Blockers:
* None

Ben P

[Fedora 6 Standup]
Finished yesterday:
* OCFLObjectSession impl tests - FCREPO-3095
* finished aside from "prepare" method and locking
* Reviewed/merged PRs
Working on today:
* Open PR for FCREPO-3095
* continue reviewing stuff/giving feedback
Blockers:
* some local activity

Danny B

[Fedora 6 Standup]
Finished yesterday:
* Integration of PR feedback for https://jira.duraspace.org/browse/FCREPO-3081: minimal implementation of OCFLPersistentStorageSession
* Integration of PR feedback for https://jira.duraspace.org/browse/FCREPO-3063: DeleteResourceServiceImpl:
* code review
* jira creation/wrangling
* Tech meetings planning

Working on today:
* continuing work on https://jira.duraspace.org/browse/FCREPO-3096: Implement OCFLPersistentStorageSession.persist (CreateNonRDFSourceOperation)
* code review

Blockers:
* None

Jared

[Fedora 6 Standup]
Finished yesterday:
* More work on CreateResourceService, CreateRdfOperationFactory, CreateResourceOperationBuilder and CreateResourceOperation - FCREPO-3105
Working on today:
* More of the same
Blockers:
* Not a blocker but we probably need agreement on where
1. User RDF validation goes (Service, OperationBuilder)?
2. Where SMTs get generated (Service, OperationBuilder)?

Bethany

[Fedora 6 Standup]
Finished Yesterday:

tive of what the translator looks like -   Unable to locate Jira server for this

macro. It may be due to Application Link configuration.

                                                    Ben P.
Working on today:
* More work on Translator
* More work on ReplacePropertiesService as things start to settle into place
Blockers:
* Time - I'm off around 1:30 today, off on Monday. I hope to wrap up a few things today so that I don't stop any progress (I will check email after 1:30, just t then)

Ben P

[Fedora 6 Standup]
Finished yesterday:
* Worked on OCFLObjectSession impl some more - FCREPO-3095
* Reviewed/merged PRs
Working on today:
* Writing tests for FCREPO-3095
* haven't figured out what to do in the prepare() method yet
* continue reviewing stuff/giving feedback
Blockers:
* a few local meetings

Andrew

[Fedora 6 Standup]
Finished yesterday:
- Ran migration against Brown "F3 legacy content"
- Investigated "Remove unnecessary OCFL versions" - pending feedback from @benc
- https://jira.duraspace.org/browse/FCREPO-3113
- Started "Enable resume/restart of migration"
- https://jira.duraspace.org/browse/FCREPO-3111
Working on today:
- Finish "Enable resume/restart of migration"
- https://jira.duraspace.org/browse/FCREPO-3111
- Run migration against UWM "F3 akubra content"
Blockers:
- None

Peter E

[Fedora 6 Standup]
Finished yesterday:
* Worked on hammering out transaction constraints
* More updates to the Atomic Batch Operation sidecar spec
Working on today:

                            t index/simple search implementation: Unable to locate Jira server for this macro. It may be due

to Application Link configuration.

None

Remi

[Fedora 6 Standup]
Finished yesterday:
* Worked on implementation of picocli (CLI) for migration-utils FCREPO-3107
Working on today:
* Continuing work on FCREPO-3107. Problem with compilation of migration-utls due to changes on the OCFL-client.
Blockers:
* Unfortunately had to attend to other tasks at work

Mohamed

[Fedora 6 Standup]
Finished yesterday:
-
-
Unable to locate Jira server for this macro. It may be due to Application Link configuration.
- classes
Working on today:
- Continuing on FCREPO-3103
Blockers:
- None

Peter W

[Fedora 6 Standup]
Yesterday:
* Refactored ocfl-java APIs
Today:
* Investigating ocfl-java path representation issues
Blockers:
* None

Ben

[Fedora 6 Standup]
Finished yesterday:
* Worked on OCFLObjectSession impl ticket - FCREPO-3095
* Reviewed/merged some PRs, took part in discussions
Working on today:
* Finish up FCREPO-3095
* review https://github.com/fcrepo4/fcrepo4/pull/1573 and other stuff
Blockers:
* none

Aaron

[Fedora 6 Standup]
Finished yesterday:
* Created documentation PR for migration utils
* Chatted more with Peter W
Working on today:
* PR reviews, update documentation PR.
Blockers:
* Will be off the rest of today and tomorrow

Bethany

[Fedora 6 Standup]
Finished yesterday:
* Worked on ReplacePropertiesService impl ticket - FCREPO-3060 - mostly done.
* Reviewed/merged some PRs, took part in discussions
Working on today:
* Looking at the idTranslator so that the RDF InputStream that's passed down has the id's already translated.
* review tickets
Blockers:
* none

Peter W

[Fedora 6 Standup]
Yesterday:
* Fixed a few ocfl-java bugs
* Troubleshot Maven
* Tried some Fedora 3 migrations
* Worked on some Mutable HEAD Extension problems
Today:
* Add some new OcflRepository APIs
* Continue to sort out some mutable HEAD problems
Blockers:
* None

Remi

[Fedora 6 Standup]
Finished yesterday:
* None, due to proxy problem which I resolved today.
Working on today:
* ticket FCREPO-3107, adding CLI functionality. Looking at Picocli framework for that purpose.
Blockers:
None

Andrew

[Fedora 6 Standup]
Finished yesterday:
- Fixed example execution provided in README
- https://github.com/fcrepo4-exts/migration-utils/pull/76
- Resolved "Ensure clean shutdown of migration-utils"
- https://github.com/fcrepo4-exts/migration-utils/pull/77
- Attempted to run migration against Brown "F3 legacy content"
Working on today:
- Run migration against Brown "F3 legacy content"
- Run migration against UWM "F3 akubra content"
- Investigate restart/resume capability in migration-utils
Blockers:
- None

Peter E

[Fedora 6 Standup]
Finished yesterday:
* Got clarification on the containment index ticket: https://docs.google.com/document/d/1yv_Tf_B4EqY8N1IDlm0avOt4mCF-5VuN0sOCtUyg_uQ/edit#
Working on today:
* Working on the Containment Index/Simple Search interface design and implementation: https://jira.duraspace.org/browse/FCREPO-3106
Blockers:
None

Mohamed

[Fedora 6 Standup]
Finished yesterday:
-
-

Unable to locate Jira server for this macro. It may be due to Application Link configuration.

- ationBuilder,
AbstractNonRdfSourceOperation
Working on today:
- Continuing on FCREPO-3103
- Refactoring FedoraLdp to use the operation builder and operation to do the update
Blockers:
- None

Danny B

[Fedora 6 Standup]
Finished yesterday:
* https://jira.duraspace.org/browse/FCREPO-3081: minimal implementation
* https://jira.duraspace.org/browse/FCREPO-3108: add snapshot support to pom
* code review
* jira creation/wrangling
* Search index planning meeting
* Tech meeting planning

Working on today:
* https://jira.duraspace.org/browse/FCREPO-3096: Implement OCFLPersistentStorageSession.persist(CreateNonRDFSourceOperation)
* code review

Blockers:
* None

Jared

[Fedora 6 Standup]
Finished yesterday:
Work on FCREPO-3105 -Implementing a CreateResourceService (focusing on POST)
Working on today:
Continuing work on above.
In/Out part this afternoon. (Take your kids to work day)
Blockers:
none

Ben

[Fedora 6 Standup]
Finished yesterday:
* Completed skeletal OCFLObjectSession - https://jira.duraspace.org/browse/FCREPO-3101
* Started work on followup OCFLObjectSession impl ticket - https://jira.duraspace.org/browse/FCREPO-3095
* Reviewed some PRs
Working on today:
* Continue with https://jira.duraspace.org/browse/FCREPO-3095
Blockers:
* Some local meetings and activities

Bethany

[Fedora 6 Standup]
Finished yesterday:
* Worked on ReplacePropertiesService (FCREPO-3060)
* Reviewd OFCL Object Skeleton Code PR (FCREPO-3101)
Working on toda

* Continue with   Unable to locate Jira server for this macro. It may be due to Application Link configuration.

Blockers: None

Remi

[Fedora 6 Standup]
Finished yesterday:
* Attended meeting
Working on today:
* Setting up environment for migration-utils
The plan is to replicate hanging / freezing issue of migration-utils and then attempt to fix it.
Blockers: None

Andrew

[Fedora 6 Standup]
Finished yesterday:
- Migration-utils team meeting
- Cleaned up migration-utils integration tests from accumulating test artifacts in source tree
- https://github.com/fcrepo4-exts/migration-utils/pull/72
Working on today:
- Ensure clean shutdown of migration-utils
- Run against UMW data (akubra)
- Verify configuration elements: source-type, source-content, ocfl-destination
- Create tickets from yesterday's meeting
Blockers:
- None

Mohamed

[Fedora 6 Standup]
Finished yesterday:
- Completed transaction PR
- https://github.com/fcrepo4/fcrepo4/pull/1559
Working on today:
- Replace a binary resource (HTTP side)
- https://jira.duraspace.org/browse/FCREPO-3103
Blockers:
- None

Peter E

[Fedora 6 Standup]
Finished yesterday:
- Completed transaction caching header PR: https://github.com/fcrepo4/fcrepo4/pull/1568
- Updated Atomic Batch Operations sidecar spec
Working on today:
- Need assignment :-)
Blockers:
- None

Dan F

[Fedora 6 Standup]
Finished yesterday:
* migration team meeting
Working on today:
* Nothing. Local work priorities I'm afraid
Blockers:
* Local work!

Danny

[Fedora 6 Standup]
Finished yesterday:
* https://jira.duraspace.org/browse/FCREPO-3063: Implement org.fcrepo.kernel.api.services.DeleteResourceService
* code review
* jira creation/wrangling

Working on today:
* https://jira.duraspace.org/browse/FCREPO-3081: minimal implementation of
* code review

Blockers:
* None

Aaron

[Fedora 6 Standup]
Finished yesterday:
* Migration meeting
* Respond to code review of pr/69 * Random OCFL chatting with Peter W
Working on today:
* migration util documentation updates
Blockers:
* none

Jared

[Fedora 6 Standup]
Finished yesterday:
FCREPO-3088 -> New URL to internal Identifer Converter
https://github.com/fcrepo4/fcrepo4/pull/1555
Discussions around layers and responsibilities
https://wiki.duraspace.org/display/FF/Fedora+6+Layer+Responsibilities+and+Interactions
Working on today:
Out for the AM
Then continuing work on FCREPO-3075 - Implement POST in the HTTP layer based on previous discussions.
Blockers:
none

Bethany

[Fedora 6 Standup]
Started yesterday:
FCREPO-3060 -> Implement org.fcrepo.kernel.api.services.ReplacePropertiesService
Participated in discussions around layers and responsibilities (thanks for the writeup Jared):
Fedora 6 Layer Responsibilities and Interactions
Working on today:
Working on FCREPO-3060
Blockers:
none

Dan

[Fedora 6 Standup]
Finished yesterday:
* Initial migration tool team meeting
Working on today:
* Fedora 3 to Feodra 6 (OCFL) via migration tooling expectations doc https://docs.google.com/document/d/15sv5zRsf1sscmVv1aItTm0_HqYavdyFfttZdmv1x9L8/edit#
* migration team meeting
Blockers:
* Local work!

Ben P

[Fedora 6 Standup]
Started yesterday:
* Skeletal OCFLObjectSession - https://jira.duraspace.org/browse/FCREPO-3101
* will open a PR soon, had been trying to make sure it would play nice with the OCFL client and other needs
* Looked ahead a bit at FCREPO-3095 (Implement OCFLObjectSession)
* added a few questions to it
* Discussion about services, builders, etc
Working on today:
* Finish up FCREPO-3101
* Maybe start https://jira.duraspace.org/browse/FCREPO-3095
Blockers:
none

Andrew

[Fedora 6 Standup]
Finished yesterday:
- Fixed migration-utils build from recent spec changes
- https://github.com/fcrepo4-exts/migration-utils/pull/70
- Cleaning up migration-utils integration tests from accumulating test artifacts in source tree
- https://github.com/fcrepo4-exts/migration-utils/pull/72
Working on today:
- Migration-utils team meeting
- Investigating reason for migration-utils to hang in sample execution
Blockers:
- Broken code base

Aaron

[Fedora 6 Standup]
Started yesterday:
* Re-learned how to compile and run PR/69 for migration utils
* Updated PR/69 with recent java OCFL client changes from master
* Fixed apparent issue in pr/69 related to eager loading of spring beans and eager repository checking on the part of the Akubra ID mapper.
Working on today:
* I hope to be able to attend the migration utils meeting
Blockers:
none

Peter W

[Fedora 6 Standup]
Yesterday:
* Messed around with the migration-utils and eventually ran it on some UW Madison objects
Today:
* Migration-utils meeting
* Try a couple more migrations using the migration-utils
* Cleanup some ocfl-java docs
* Update the mutable HEAD extension doc
Blockers:
* None

Peter E

[Fedora 6 Standup]
Yesterday:
* Factored findOrCreateAcl() out of FedoraResource: https://jira.duraspace.org/browse/FCREPO-3064
Today:
* Adding caching headers to transaction responses: https://jira.duraspace.org/browse/FCREPO-3092
* Continue working on the Batch Atomic Operation sidecar spec
Blockers:
* None

Mohamed

[Fedora 6 Standup]
Finished yesterday:
- Working on transaction PR
- https://github.com/fcrepo4/fcrepo4/pull/1559
Working on today:
- Continuing on PR1559
- Figuring out how make the transaction associated with the request available in WEBAC classes
Blockers:
- None
