Agenda

#	Time	Item	Information	Who
1	5mins	Agenda	Any additional topics to today's agenda?	All
2	15mins	Updates on OpenAIR Ev4	Work based on: • Initial presentation: https://docs.google.com/presentation/d/1G7JGRHq-qgQ44GSr3guBEUEQTb2-6JjKKsQ0-cPGkBM/edit?usp=sharing • Review of document: https://docs.google.com/document/d/1mUrtxbVMhCmp18doZ2kavZAAJ2LMemmeiYPPC6O13LU/edit?usp=sharing • Work plan: https://docs.google.com/spreadsheets/d/1SAsQYgRayAgdSrWJAjQmJwA2LT-T0yqXrhFu4J6xhMY Blocking question about XOAI interface and "entities" filtering: DS6 doesn't have entities. We are introducing them in DS7. OAI interface exposes items and with DS7 an Entity is a typed item. Should OAI expose all items (Publications and Persons mingled) or the current metadata formats should all be firstly filtered to Publications (at xoi.xml level configurations)? Next steps: demo submission form and XOAI changes	All
3		Topic #2		
4		Topic #3		
5	15mins	Wrap-up and Assigning tasks	• Assign tasks / PRs to review (as needed) • Next meeting is Tues, Nov 19	

Current Work

Legend for status icons

★ = Highest Priority tasks (please prioritize these reviews/tasks over others). These are tasks with lots of dependencies

✖ = review done, changes were requested or bugs found.

✔ = review done, approved.

⚠ = review done, merge conflict or other minor changes requests

1 APPROVAL = pull request only requires a single approval to merge. This is generally reserved for PRs which are either smaller, obvious, and/or bug fixes with tests to prove they work.

Task List

This task list has been updated as of our meeting on [Oct 22, 2019](#). The tasks are numbered for easy reference, but are not necessarily listed in priority order. During this meeting we worked to re-summarize current work status so that we can align this task list with the [DSpace 7 Estimation Process](#) (and as such, estimate any we feel should be considered for 7.0 release). *NOTE: Keep in mind, just because a task is listed here does NOT guarantee it will be completed for DSpace 7. Some of these tasks may need to be delayed for a future release.*

Legend for status icons

✔ = task considered "completed" (unless bugs or issues are later found)

⚠ = task is incomplete or has further work to be done.

? = task that may be delayed or postponed for after 7.0.

 - a. Should we eventually consider hiding these Collections which only serve to store Entity Types?
