Notes

1. [Peter Winkles](#) in the house!
 - Peter Winkles joined the [Fedora Committers](#)
 - Code signing keys should be updated
2. [April Sprint Planning](#) - April 6-10
 - [Andrew Woods](#) updated the sprint planning page and [Fedora 6 Feature Tracking](#) page:
 -  for completed tasks
 -  for tasks that need polishing
 -  for uncompleted tasks
 -  no yet verified
 - Messaging
 - Which message bus should be used? See: [2020-04 Fedora 6 Sprint](#)
 - [Aaron Birkland](#) stick with Guava, because already known or implement our own, if there are problems (rather than learning a new framework)
 - Wiring currently relies on Modeshape will need some refactoring
 - Containment index
 - Long running transactions
 - goal: start and end transactions accross multiple http requests
 - mostly in place
 - details/edge cases might need to be worked out
 - ACLs
 - [Andrew Woods](#) suggests to drop "long running transactions" or "ACLs" from the sprint
 - [Danny Bernstein](#) drop ACLs from the next sprint because rather well known

can be merged

<https://github.com/fcrepo4>

4. Fedora and Docker
 - <https://github.com/fcrepo4-labs/fcrepo-docker> for official Fedora docker images
 - we stick with separate repos (although I might need more maintance) because it seems to be the preferred solution
 - <https://github.com/fcrepo4-labs/fcrepo4-docker>
 - rename to fcrepo-docker-compose? will be discussed next week
 - Merging: <https://github.com/fcrepo4/fcrepo4/pull/1646> ? - maybe not will be discussed next week
5. Containment Index will be discussed next week
 - a. How to handle SQL differences (H2, MySQL, PostgreSQL) - pluggable connectors?
6. Moving Fedora 6 (and other projects) to <https://github.com/fcrepo> ? will be discussed next week
 - a. Current home: <https://github.com/fcrepo4>

Actions

- **Who:** Clarify in documentation that multiple simultaneous writes to OCFL are not supported
- **Who:** After team has a chance to comment, send Ghost Node idea to general community for feedback
- **Who:** Decide who works on what in the next sprint
