VIVO Scholar task force

The task force is pleased to announce VIVO Scholar 0.9.0-beta and Scholars Discovery 1.0.0-RC1. VIVO Scholar is an optional UI that can be installed with an existing VIVO site. The VIVO Scholar UI is easy to customize and provides additional faceted search features. Scholars Discovery is a middleware component that consumes VIVO data and makes it available in GraphQL, which provides an easy query interface for web developers to re-use VIVO data.
