## Notes:

### 1. Welcome, announcements

- Kristi welcomes Laurie Arp in her new role as permanent Director of the DuraSpace Community-Supported Programs (DCSP) Division.

### 2. FY21 Budget

- Laurie presents the proposed FY20-21 budget which was revisited by DSpace Steering due to COVID-19.
- 10% lower membership revenue is estimated due to Corona consequences. The development will be reported regularly at the next LG meetings. Raised revenue can be expected from the German consortium.
- The sum of the fundraising is a conservative estimate considering Corona.
- The budget will receive continuous updates during the year
- Vote: The budget passes the Leadership Group

### 3. DSpace 7 development update

- Tim: [DSpace beta 2](#) was released yesterday with a slight delay
- The email announcement will be followed by a blog post
- Next is a planning sprint until the end of April
- Congratulations from LG!
- John: Are there still testers and reviewers needed?
- Tim: Situation is slightly better, e.g. because of Michele's efforts programmers from Mexico have stepped in. Still more help is needed. For anyone interested: contact Tim, [review pull requests](#) or join a meeting of the [DSpace 7 working group](#).

### 4. Fundraising and Community Engagement update

- Bob: Fundraising has amounted to 118,000 \$ so far. Corona has impact on fundraising calls
- Kristie presents the plan from the marketing working group to host two DSpace Community Forums on Zoom next week for Bronze and Copper Members and Supporters. There will be room for discussion when the current status of DSpace is reported and possibilities for participation are presented. The meetings will not be recorded.
- 12 sign-ups already. The 28 German members have not been individually invited since they have already been addressed at the [Anwendertreffen](#) already but are welcome to join.
- LG members are asked to contact the participants for a follow-up. Email templates are provided by Mic and Kristi. Kristie will send email with details.
- Discussion: It might be the wrong time to ask for (financial) involvement - It might be inspiring to hear from other countries - There is nothing to loose with a call
- Action Item: LG members are asked to sign up for 2-3 Bronze/Copper Members or Supporters to contact following the Community Forums until April 24.
- Mariya observes that the email for renewals of the membership as well as the website could be more transparent. E.g. bronze and copper membership is not mentioned in the email.
- Mic explains that only the general Duraspace/Lyrasis membership conditions are described whereas every project governance like DSpace may have deviating regulations which are not reflected on the Duraspace website. Also the duraspace website still has to be moved to lyris.org
- Action Item: The marketing group should be asked to help update the information on membership

### 5. Marketing Working Group report

- Heather: Messaging about beta has been worked on. The responsibility for the announcements will rotate. Atmire has taken their turn for beta 2 and added short videos displaying the new functions.
- Mic has worked of the global user groups. A DSpace National User Groups Coordinators 1st Meeting was held von April 8th. The focus is to involve different countries to make DSpace 7 a truly global release.
- A webinar series to inspire initiatives that provide visibility to digital resources using DSpace at the time of COVID19 is being planned,
