

2020-05-07 - DSpace as A Collaborative knowledge Hub for Mitigating Distance Learning Challenges During the Pandemic

Presented by Dr. Amrender Kumar Jha, Program Head – [KrishiKosh](#), (Principal Scientist – Agricultural Statistics), Indian Agricultural Research Institute in collaboration with DSquare Technologies, New Delhi (Service Partner Krishikosh and DuraSpace Registered Service Provider).

[KrishiKosh](#) is the Open Access knowledge bank for more than 80 agriculture institutions from India having more 201k items / 40 million pages.

The Head of the Program will share how they transformed their DSpace Institutional repository into a Collaborative knowledge hub to help institutions in mitigating challenges faced in Distance learning during pandemic times.

Question	Answer
Hi, Did you integrated farmers to the KhishKohs system? both companies or idividuals, I mean as contributor, not just only viewers.	
What is a custom report?	
What about the download number for lectures?	
How content is converted into linked knowledge?	
What is reactions of faculty members as knowledge hub of DSpace?	
My name is Kirubel from African Union, We have a knowledge hub called African Knowledge base platform that tries to integrated different database focused on Africa and make them available to research, policy maker and students. So we are requesting How can we contribute to fight against COVID-19 to African. How can we harvest information related to COVID.
