Google Doc for meeting notes:

Attendees

- Brian Lowe
- Mike Conlon
- Philip Strömert
- Violeta Ilik
- Mathias Brochhausen
- Anna Kasprzik
- Christian Hauschke
- Ralph O'Flinn

Agenda

1. Updates
 - a. ZDB presentation
2. Work in progress
 - a. ADO
 - b. ORG
 - c. LANG
3. AEON
 - a. Github: <https://github.com/tibonto/aeon>
 - b. Slides of the AEON presentation at the VIVO conference: <https://doi.org/10.5281/zenodo.3896516>
4. Next Meeting, two weeks, July 9.

Notes

- Updates
 - ZDB presentation
- Work in progress
 - ADO
 - ORG
 - LANG -- <http://github.com/vivo-community/language-ontology.git>
- AEON
 - Github: <https://github.com/tibonto/aeon>
 - How will we coordinate the cooperation in the GitHub repo
 - Probably needs a separate meeting
 - Need to check the TIB policy on that
 - <http://ontology.tib.eu/aeon/>
 - Slides of the AEON presentation at the VIVO conference: <https://doi.org/10.5281/zenodo.3896516>
 - Content Questions:
 - In how far do we need to incorporate the research output, wil DOI (PID) be enough?
 - How fine grained should the object properties (predicates) be?

- How to model blockchain certificates for attendees?
- Confident will focus on AEON. SEO has several inconsistencies. AEON has advantages with the VIVO community and ability to create a consistent ontology. SEO is currently more comprehensive. <http://kddste.sda.tech/SEOontology/Documentation/>
- Discussion (Mathias): if a role ceases to exist if it is not fulfilled then this indicates that this should not be modeled as a role. One sign that something is not a role is if it MUST be fulfilled. Such things are not roles. Roles are “realizable” optionally. One would have roles that are never used
- Attendee role:
 - must be realized as an actual activity in a part of the event. So perhaps this is not a role.
 - Is supposed to attend the event
 - To count those attendees, we might have Person -> participates in -> Attendee Act -> part of -> Event
 - Being the bearer is not enough. Must be realized to “prove” attendee. Attendee role qualifies one to receive materials and attend. Sounds like Potential Attendee, or Registrant.
- Mathias can be reached by email
- Next meeting, two weeks, July 9. Mike will present ADO

Action Items

- Mike will reach out to Andrew to set up a meeting regarding development practices
- Mike will prepare ADO ahead of time so that people can review.
- Philip will continue work on AEON
