Manakin Themes and Recipes

The purpose of this page is to help share Manakin (XMLUI) code snippets, recipes, and themes.

For the XMLUI/Manaking How-To's, please see: XMLUI How To Guides

External/internal links to themes and recipes can also be listed below:

Themes

Sample Image Gallery Theme: displays images in a grid view and includes a Javascript zoom-and-pan viewer for individual item display. You can see a sample of the theme in action here: [The theme code is located here: http://dspace.nitle.org/handle/10090/12005.]

Recipes

- Rendering line breaks in item metadata (Manakin)
- Customize header or footer (Manakin)
