Agenda:

- DSpace 7 documentation and testing. Guest: Tim Donohue (LYRISIS)
 - DCAT's role in helping to create user-facing documentation for DSpace 7 - *new* documentation that didn't really exist for DSpace 6 and below ("here's how you do X in the new UI").
 - Working on documentation can allow DCAT members to start to learn the new UI, document what they learn, and report back any bugs they find.

Preparing for the call

If you can join the call, or are willing to comment on the topics submitted via the meeting page, please add your name, institution, and repository URL to the Call Attendees section below.
