

2021-02-04- Fedora Tech Meeting

Time/Place

This meeting is a hybrid teleconference and slack chat. Anyone is welcome to join...here's the info:

- Time: 11:00am Eastern Daylight Time US (UTC-4)
- Audio/Video Conference Link: <https://llyrasis.zoom.us/j/396037251>
 - Meeting ID: 396 037 251
 - Find your local number: <https://llyrasis.zoom.us/u/ad6Xb7q3ia>
 - Join fedora-project.slack.com on the "tech" channel
 - Self-register at: <http://slack.fcrepo.org/>

Attendees

1. [Danny Bernstein](#)
2. [David Wilcox](#)
3. [Jared Whiklo](#) ★
4. [Peter Winckles](#)
5. [Daniel Lamb](#)
6. [Calvin Xu](#)
7. [Ben Pennell](#)
8. [Thomas Bernhart](#)

Agenda

1. Announcements
2. Sprint Planning
 - a. Review Objective(s) of this sprint
 - b. [Review of the Board](#)
3. Performance Testing
 - a. [Test Results - Many children](#)
 - b. [Performance Testing Criteria](#) (Document)
4. Flyway DB
5. PRs needing attention
 - a. <https://github.com/fcrepo/fcrepo/pull/1853>
 - b. <https://github.com/fcrepo-exts/migration-utils/pull/141>
6. Your topic here
 - a. guidance on setting up solr with fedora6 for prototyping blacklight sit on top of solr driven fedora 6

Tickets

1. In Review

type	key	summary	assignee	reporter	priority	status	resolution	created	updated	due
Unable to locate Jira server for this macro. It may be due to Application Link configuration.										

2. Please squash a bug!

key	summary	type	created	updated	due	assignee	reporter	priority	status	resolution

3. Tickets resolved this week:

key	summary	type	created	updated	due	assignee	reporter	priority	status	resolution
Unable to locate Jira server for this macro. It may be due to Application Link configuration.										

4. Tickets created this week:

key	summary	type	created	updated	due	assignee	reporter	priority	status	resolution
Unable to locate Jira server for this macro. It may be due to Application Link configuration.										

Notes

1. No announcements
2. Sprint planning
 - a. Main objective is getting to Beta, would be ideal if we can cut the Beta release during the sprint.
 - b. Some important tickets are FCREPO-3605 (Add version property to the resource headers) and FCREPO-3608 (Initiate creation of memento with 'mementoCreatedDate')
 - c. FCREPO-3623 - Upgrading to ocfl-java now that the specification has been merged needs to happen.
 - d. FCREPO-3613 - Issues around GETting and PUTting to an existing resource.
 - e. FCREPO-3583 - Allow users to configure default OCLF digest algorithm.
 - f. OCFL bloat due to running the migration-utils over an existing repository output. Calvin and Peter to examine a single OCFL object from the migrated repository to see what they can figure out.
3. Performance testing
 - a. There is some caching of the resource headers. But we are not caching rdf types which would have additional benefits. It is hard to compare what others (Killian in this case) are doing to try and match their setup.
4. Calvin will help test the updated documentation on indexing Fedora 6 to a Solr instance (FCREPO-3573)
5. Flyway stuff is almost complete.
6. PRs - Inline XML PR, Danny wants to confirm with Scott Prater that this solution is acceptable to him.
7. Moving Camel toolkit to a non-OSGI environment. Thomas Bernhart and Ben Pennell both have experience and/or interest

Actions
