## Agenda:

Meeting facilitated by Anne Lawrence

- [Documentation Sprint](#)
  - Review of first documentation sprint and discuss next steps
    - Gail's comments from first sprint:
      - Attendance was very low.
      - We should probably make known our need for the wiki and the DSpace 7 demo instance to be up and running during the sprints. Share dates and times with... whom? And who would be our technical contacts if one or the other is down?

## Preparing for the call

If you can join the call, or are willing to comment on the topics submitted via the meeting page, please add your name, institution, and repository URL to the Call Attendees section below.

## Meeting notes

Some attendees of the writing sprint wanted to learn more about DSpace 7.

Some writers favor images but we need also need to make sure all images are accessible.

Technical problems during last sprint - couldn't post to wiki one day and Atmire demo site, <https://demo7.dspace.org/home>, was down one day

Need to have technical contacts, need to avoid maintenance schedule

Got [2 bug reports](#) - need to submit to Slack or Git, [Try out DSpace 7#ReportingIssues?](#)

Planned DSpace release in February - on track?

Low participation in first sprint.

Possible remedy: combine test-a-thon with writing?

Possible solution: grow DCAT group with occasional meetings for new users.

Could have DCAT meeting at better times for other time zones.
