

# 2020-12-17 Product Technology Subgroup Meeting

## Attendees

- Ben Wallberg
- David Wilcox
- Doron Shalvi
- Jared Whiklo

## Regrets

## Agenda/Notes

1. Announcements
2. Test results
  - a. NLM uses MySQL
  - b. Need to update Fedora 6 requirements on MySQL version
  - c. Need to optimize MySQL performance
  - d. What are we using in MySQL 5.8?
3. Data collection
  - a. NLM
    - i. Lots of security scans
    - ii. Firewall ports likely closed by default
      1. Make request to open port for a period of time
      2. Likely some reluctance to do this
      3. Hoops to jump through
  - b. Automated deployment
    - i. Don't want hoops to jump through
    - ii. Could be deploying several times in a month
      1. How to disable reporting after the first deployment
  - c. Islandora discussed this
    - i. Islandora 7 used "islandora" in pathnames so you can Google
    - ii. This doesn't work in Islandora 8
    - iii. Drupal allows checking for updates
      1. Could Islandora piggyback on this function?
    - iv. Add this information to an administrative page
  - d. Need to sell as a feature
    - i. Signup for updates
  - e. This could be a marketing campaign
  - f. Link headers - can these be tracked?
    - i. Could put version info in headers to track
  - g. Advanced features
    - i. Documentation, services, etc. in exchange for providing information
