Notes

1. Announcements
    a. The last sprint was very successful and Beta has arrived. The future is now.
    b. Upcoming user group meetings for Europe in March and North America in April.
2. Post-Beta Plans
    a. Shooting for April to Release 6.0.0
    b. What to do other than obvious bug-fixes and community feedback?
        i. Test databases other than postgresql, specifically MySQL, esp 5.7
            1. Issue with 503 character limit for IDs is looming. Will need to reach out to see if it would affect anybody.
        ii. Updating the camel-toolkit
            1. Drop OSGi and make spring boot jars
            2. Do we offer these seperately or make one box that you can configure to run only the services you need
            3. We'll set up a meeting to go over the strategy for moving off of Karaf and how best to provide that to the user
