

2021-04-01- Fedora Tech Meeting

Time/Place

This meeting is a hybrid teleconference and slack chat. Anyone is welcome to join...here's the info:

- Time: 11:00am Eastern Daylight Time US (UTC-4)
- Audio/Video Conference Link: <https://llyrasis.zoom.us/j/396037251>
 - Meeting ID: 396 037 251
 - Find your local number: <https://llyrasis.zoom.us/u/ad6Xb7q3ia>
 - Join fedora-project.slack.com on the "tech" channel
 - Self-register at: <http://slack.fcrepo.org/>

Attendees

1. [Danny Bernstein](#)
2. [David Wilcox](#)
3. [Jared Whiklo](#)
4. [Peter Winckles](#)
5. [Daniel Lamb](#) ★
6. [Ben Pennell](#)
7. [Thomas Bernhart](#)
8. [Calvin Xu](#)
9. Mike Ritter

Agenda

1. Announcements
 - a. [2021-10 Camel Toolbox Sprint](#)
2. Releases
 - a. fcrepo-migration-validator alpha?
 - b. RC-1 for fcrepo
3. Moving off of Jira
4. Pilots / Testing
 - a. [JIRA MySQL Results?](#)
5. Pre release
 - a.
 - b.
 - c.
 - d.
 - e. Unable to locate Jira server for this macro. It may be due to Application Link configuration.
6. Any new
 - a.
 - b. Unable to locate Jira server for this macro. It may be due to Application Link configuration.
7. Your topic
 - a. Migration-um performance issue in testing
 - b. Updates to fcrepo Modeshape <https://github.com/fcrepo-exts/modeshape/pull/2>

Tickets

1. In Review

type	key	summary	assignee	reporter	priority	status	resolution	created	updated	due
Unable to locate Jira server for this macro. It may be due to Application Link configuration.										

2. Please squash a bug!

Unable to locate Jira server for this macro. It may be due to Application Link configuration.										

Notes

- Alpha release of fcrepo-migration-validator will land soon
 - Will be reaching out to a handful of organizations to find testers, including UVA and UW Madison
- RC-1 Release of fcrepo
 - Concerns around performance
 - AWS
 - Search Index
 - MySQL
 - Going to give it 3 weeks to do some testing on these issues
 - Migration utils is running slower according to Calvin Xu
 - You can disable checksums by passing it a --no-checksum-validation flag, which should speed it back up to where it was in the previous release
- Moving off of Jira
 - Need to confirm if the existing ticket history can be moved along or preserved in some way
 - Also need to confirm Kanban functionality works with Github's permissions scheme
- <https://github.com/fcrepo-exts/modeshape/pull/2>
 - PR seems benign, and stops null pointer errors when deleting objects from Seth's repo
 - It's unclear as to how the objects were created or what is making the NPE pop
 - Should probably add some logging to cover the case when null still happens
