2. Deployment documentation (github)

Minutes

- Updates
  - LYRASIS
    - Danny updated ArchiveIt Sync to support Java 11
  - TDL - Deployed RTS with a few institutions
    - Audit AIP checksum is always different for all clients
    - Nick to test out Chris Wilper's PR for RTS (DSpace v7)
  - Andy - working on ticket with RabbitMQ not have an auto-incrementing
    - Multi-part to be looked at after launch
- DuraCloud Sprint: July 5 - 16
  - Check-ins on Tue/Thurs each week
- On next call, assign the existing set of tickets in the Selected for Dev category
- Docker/Terraform strategy
  - Andy not likely to get to this work in the next few weeks, was just planning to create the docker files
  - Danny starting with Terraform, starting on the Mill
    - May take a crack at the Dockerfiles as well, getting a review from Andy
  - Dockerfiles will live with the existing code (DuraCloud, MC, each Mill component)
