

2021-04-21 Meeting notes

Attendees

- Tal Ayalon
- Kimberly Chapman
- Scott Hanrath
- Barbara Hirschmann
- ~~Agustina Martínez García~~
- Beate Rajski

Discussion items

Time	Item	Notes
10 mins	Resource review	Share highlights and takeaways from resources added since list time
40 mins	Engaging stakeholders	Moving ahead with gathering input from service providers
10 mins	Next steps	To-do's

Notes

Resource review

Added resources:

- [Notify Project](#)
- [Figshare live roadmap](#)
- [TIND \(roadmap coming soon\)](#)

Missing alternative product roadmaps

- Fedora
- Samvera

List is considered complete.

Engaging stakeholders

Goal: Positioning Paper: Where should DSpace go to stay relevant. Selected use cases from [DSpace Positioning](#) should be used for structuring.

Stakeholders to be engaged: 1. [Certified DSpace Partners](#) 2. [National User Groups](#)

Step 1: Engage certified DSpace partners:

- Timeline: End of May
- Separate online interview (1-1,5 h) with each partner and subgroups of the working group. Roadmap for the interview to be sent ahead.
- Focus on:
 - Three areas you find crucial
 - What does DSpace need to to be to stay/become a thriving open source ecosystem to service providers?
 - What is needed to position DSpace for the future for broad use areas (see [DSpace Positioning](#))
 - Focus on clients: What kind rsp. which of your client concerns are not matched in current DSpace?
- Possible additional input:
 - Additional feature catalog offered by service provider

Next Steps

- Draft interview outline. [Kimberly Chapman](#) will start a document.
- Decide on subgroups for interviews
